REPORT OF THE BOARD OF DIRECTORS

WE REAFFIRM OUR STRONG COMMITMENT TO MEET THE CHALLENGES, BY PERSISTENT COMMITMENT TO DYNAMICALLY ADAPT TO COMPLEX ECONOMIC SCENARIO AND POSITION BETTER TO SUSTAIN A CONSISTENT GROWTH TO OUR SHAREHOLDERS IN THE YEARS AHEAD.

Moraja G. Solaiman
Chairman

It is a great pleasure and privilege for me to address the Annual General meeting of the shareholders of Alubaf Arab international Bank, Bahrain.

On behalf of the Board of Directors', I am delighted to present Alubaf's Annual report and audited financial statements for the year ended 31 December 2015.

The year 2015 has been a difficult and challenging year for the Banking industry, due to significant decline in oil prices that impacted economies in the region, which led to subdued credit growth, heightening asset quality concerns and volatile markets. The regional conflicts also increased these challenges.

Amid such challenging market conditions, Alubaf posted a net profit of US\$ 25.1 million for financial year ended 31 December 2015, a contraction of 38%, compared to US\$ 40.7 million for previous year.

This decrease in net profit is attributed to substantial provision for credit losses amounting (net) to US\$ 21.3 million, which was considered for the year 2015, taking a conservative stand and to build adequate loan loss provisions. Due to provisioning, net operating income reduced to US\$ 37.7 million.

Total operating expenses reduced by 6%, compared to last year due to saving on other operating costs. Cost to income ratio increased to 34% from 25% last year, mainly due to decline in net operating income after provision for credit losses. Total assets as at 31 December 2015, grew by 20%, as compared to last year 2014. Capital adequacy

ratio remained strong at 44% and ratio of liquid assets to total assets improved to 64% compared to last year 46%.

Looking ahead, the growth prospects for 2016 is extremely challenging given the current global uncertainties and weak oil prices, which particularly impacts the markets that we operate.

We reaffirm our strong commitment to meet the challenges, by persistent commitment to dynamically adapt to complex economic scenario and position better to sustain a consistent growth to our shareholders in the years ahead.

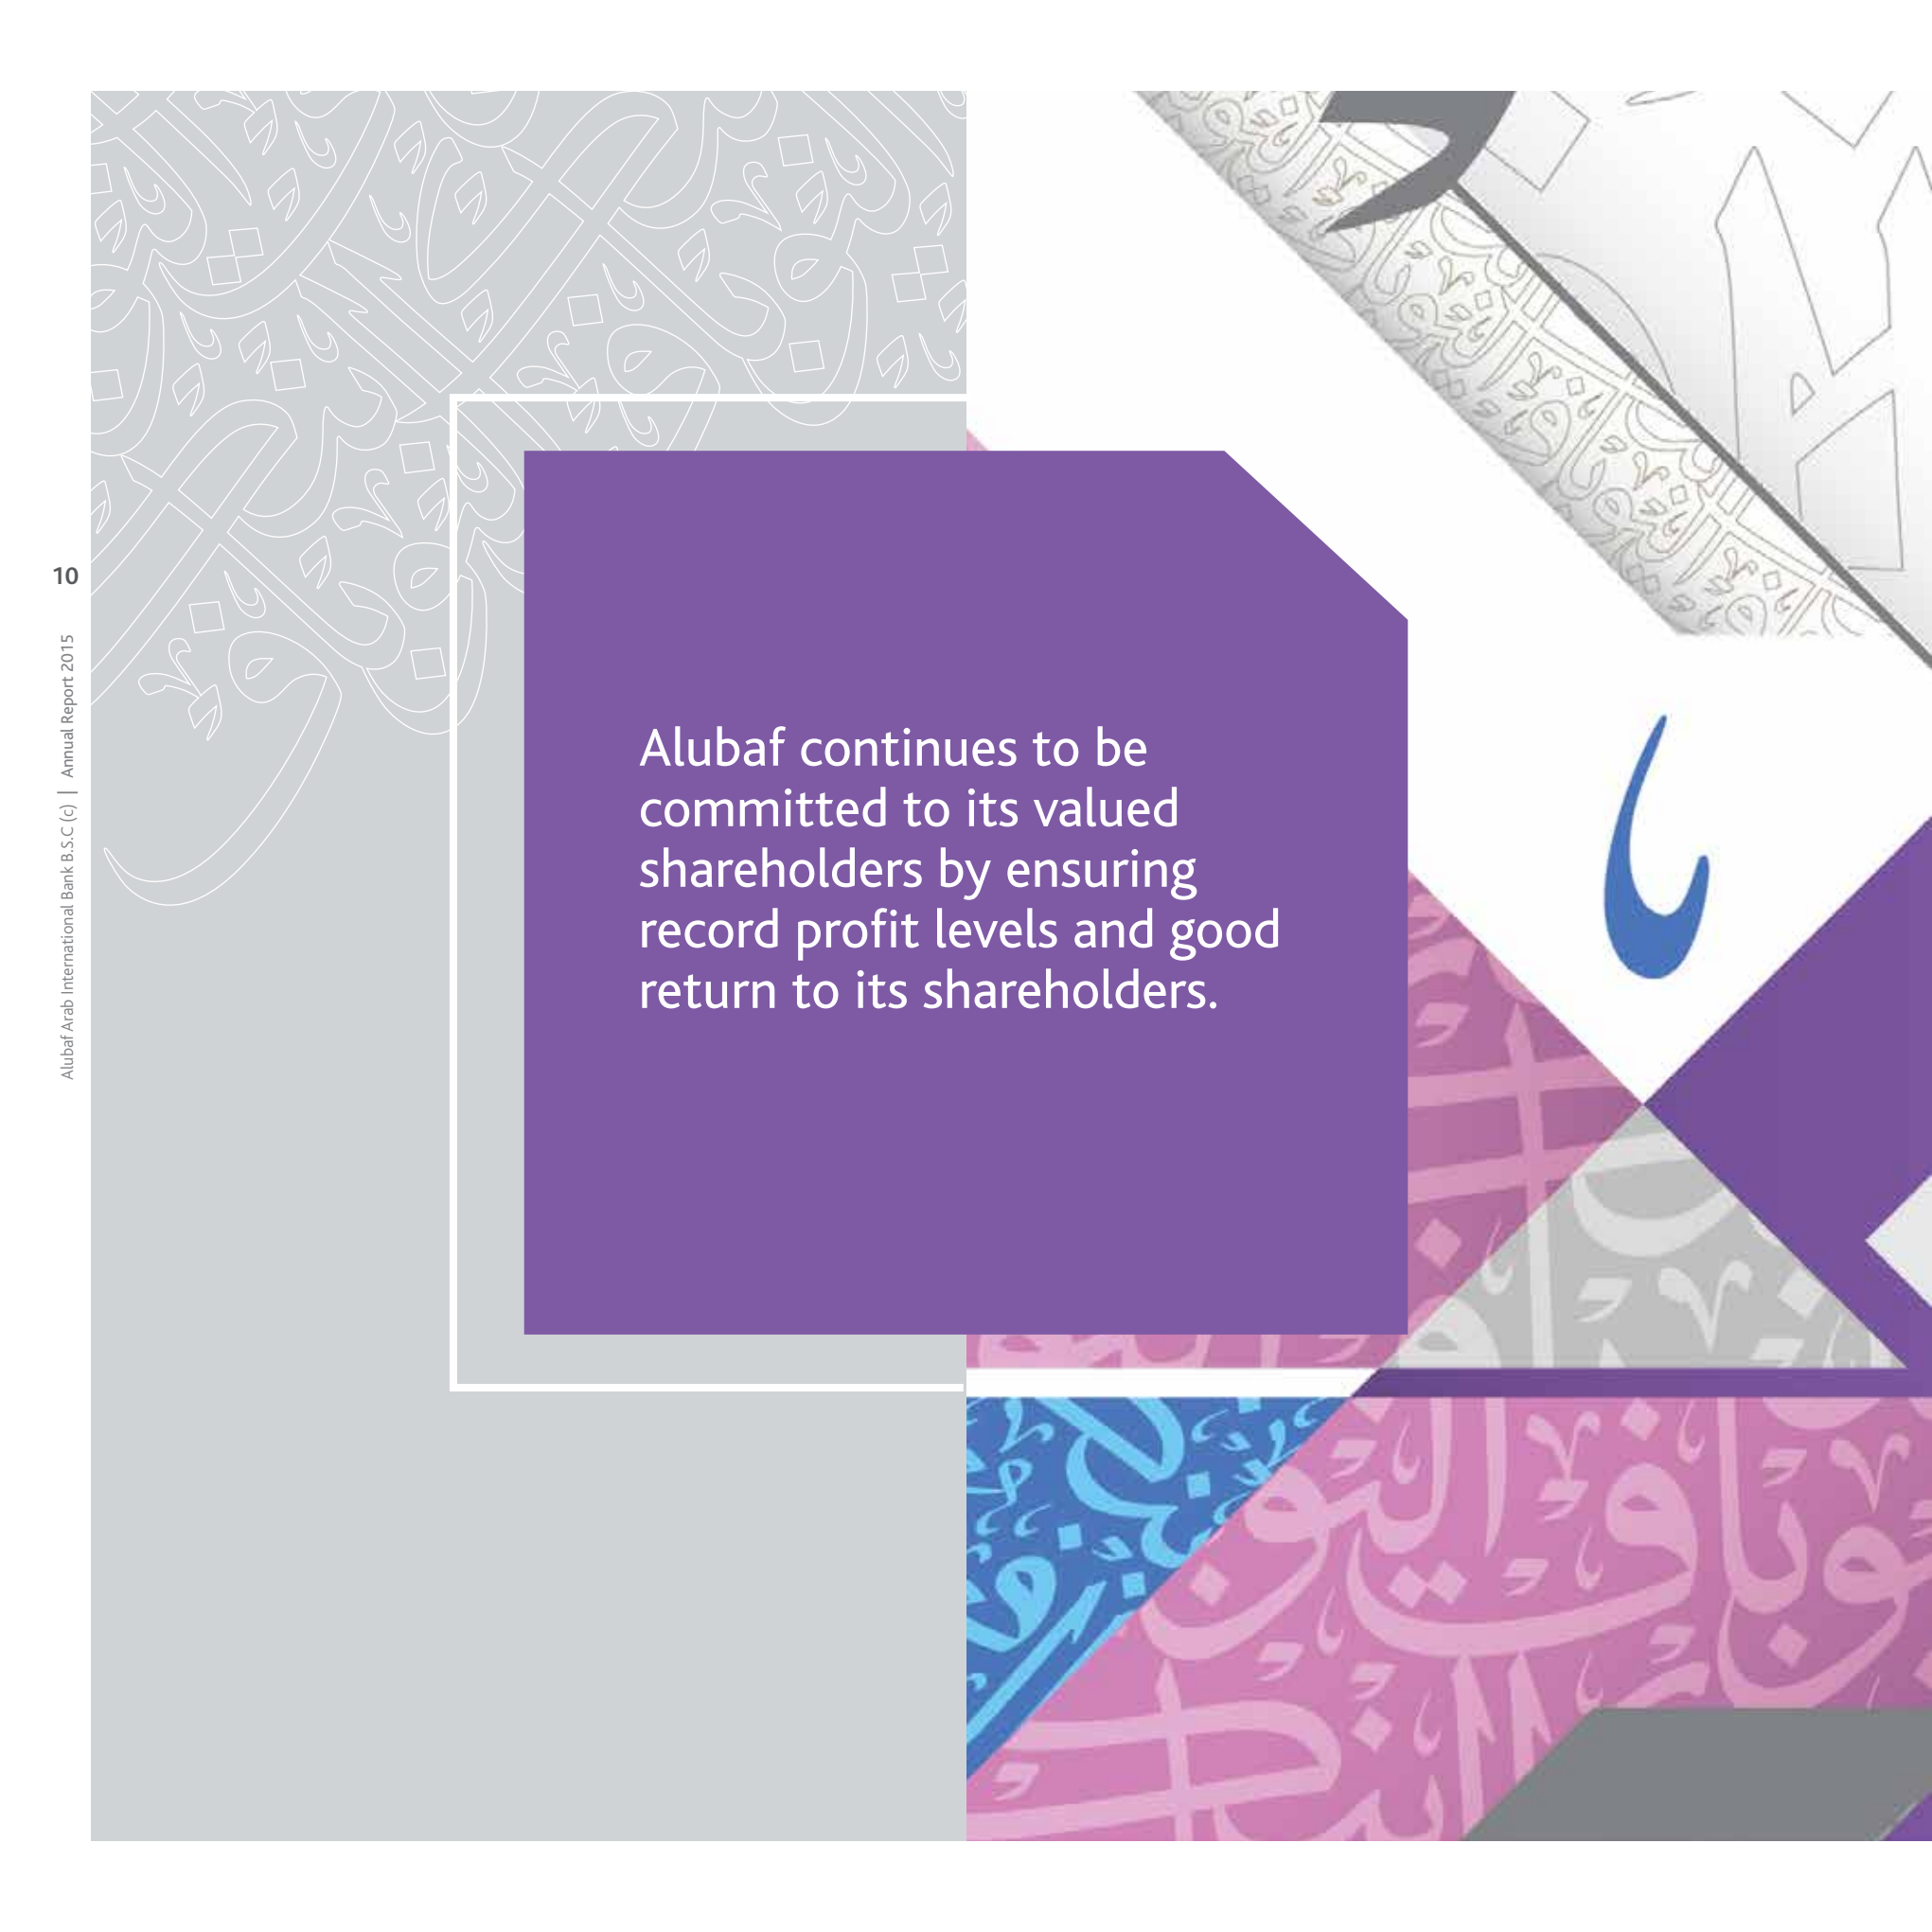

Finally, I would like to thank all the members of the Board, the Shareholders, the Ministry of Industry and Commerce in the Kingdom of Bahrain, Central bank of Bahrain and all Correspondent Banks and our Customers for their continued support, cooperation and guidance. I also extend my appreciation and thanks to all the employees in the bank for their professionalism and commitment for the Bank's continued growth and progress.

Moraja G. Solaiman
Chairman

US\$
25M

Amid market conditions, Alubaf posted a net profit of US\$ 25.1 million for financial year ended 31 December 2015

Alubaf continues to be committed to its valued shareholders by ensuring record profit levels and good return to its shareholders.

REVIEW OF THE CHIEF EXECUTIVE OFFICER

ALUBAF HAS STRONG FOUNDATION AND SUPPORT FROM ITS MAJORITY SHAREHOLDER AND IS CONFIDENT THAT WITH DUE MEASURES ALIGNED TO FACE CHALLENGES AND SOUND STRATEGY, THE BANK WILL CONTINUE ITS PATH TO PROGRESS AND PERFORM.

Hasan Khalifa Abulhasan
Chief Executive Officer

It is my pleasure to report on the performance of the ALUBAF Arab International Bank during 2015. The year 2015 was a challenging year for the banking sector in the region due to weak oil prices that impacted adversely economies in the region and to height concerns on security and stability. Despite such challenging conditions, Alubaf achieved a net profit of US\$25 million for financial year ended 31 December 2015.

- The operating income for the year 2015 was US\$ 59.3 million, which comprised of interest income amounting to US\$ 47.6 million, signifying 80.3% of total income. The non-interest income contributed 24.1% of total income, amounting to US\$ 14.3 million.
- The total operating expenses amounted to US\$ 12.6 million, which was 34% of net operating income.
- The total assets stood at US\$ 1,443 million.
- The non-performing loans was 19% of gross loan portfolio, while provisioning for credit losses stood at 43%.
- The Bank's capital adequacy ratio was 44%, while, the liquid assets to the total assets was 64%.

Besides the good results achieved during the year 2015, the Bank strengthened and reviewed its organization structure and updated various internal policies and procedures with current best practices in industry, that meet local and international regulatory requirements and aid in achieving goals and objectives set by the Bank's Management and Board of Directors.

Looking ahead, we expect a gradual growth in 2016 besides the instability and continued economic uncertainties. Alubaf has strong foundation and support from its majority shareholder and is confident that with due measures aligned to face challenges and sound strategy, the Bank will continue its path to progress and perform.

In conclusion, I would like to express my sincere thanks to all employees for their efforts and commitment, in realizing good results and I extend my thanks to Board of Directors and shareholders for their confidence and support.

I extend my thanks to the Government of Bahrain, Central Bank of Bahrain, correspondent Banks, and customers for their continued and unlimited support to the Bank.

Hasan Khalifa Abulhasan
Chief Executive Officer

US\$

CORPORATE GOVERNANCE continued

1 GOVERNANCE

ALUBAF Arab International Bank ("the Bank") is committed to uphold the highest standard of corporate governance. The Board of Directors and management are fully committed to complying with established corporate governance and compliance with best practices in the Kingdom of Bahrain. This reflects the Bank's commitment to enhancing corporate governance, financial transparency and fairness in the disclosure of financial information for all stakeholders.

The Bank has endeavored to comply with the requirements of the Corporate Governance Code introduced by the Ministry of Industry and Commerce (MOIC) of Kingdom of Bahrain on March 2010 and the Central Bank of Bahrain's (CBB) Rulebook Module - High Level Controls (Module HC) effective from 1 January 2011.

According the Bank charter and the requirements set forth by the Code of Corporate Governance of the Kingdom of Bahrain, the Board has delegated specific responsibilities to a number of Board and Management Committees. Each Committee has its own formal written charter. The main Committees are:

1. Board of Directors Committees:

- Audit, Risk & Compliance Committee (ARCC); and
- Nomination & Remuneration Committee (NRC).

2. Management Committees:

- Asset and liability Committee (ALCO);
- Management Risk Committee (MRC); and
- Human Resource and Compensation Committee (HRCC).

2 INDEPENDENCE AND AUTHORITY

Audit, Risk and Compliance maintain separate positions in order to ensure its independence. This ensures independent and objective monitoring and reporting of functions to senior Management and the Board. In this respect, the Audit, Risk and Compliance exercises direct access to the Audit, Risk & Compliance Committee (ARCC).

Furthermore, the independence of functions are maintained by requiring the respected staff to, perform only Audit, Risk and Compliance related responsibilities and not involving in any activities where there may be a probability of conflicts of interest. Audit and Compliance staff report directly to the Head of Department and are not involved by any means in the day-to-day business activities.

To carry out its duty both efficiently and effectively, the Audit and Compliance functions have the following privileges and authorities:

- To communicate (at any time and on its own initiative) with any staff member and obtain any records or files necessary to enable it to carry out its responsibilities;
- A direct line of communication with CBB, supervisory authorities and the Audit, Risk & Compliance Committee (ARCC); and
- Authority and resources (to include engaging outside specialists) to initiate and carry out / investigate possible breaches of laws and regulations and plan corrective actions, in case of exceptions.

The compliance function is also independent of the Internal Audit Department. To promote independency and objectivity of the functions, a separate audit program covering the activities of the compliance function is undertaken by the Internal Audit department as part of its review.

3 SHAREHOLDERS

The Bank is majority owned by Libyan Foreign Bank (LFB) by 99.50%, a Bank registered in Libya and 100% owned by the Central Bank of Libya.

The shareholding structure of the Bank as of 31st December 2015:

Name of Shareholder	Percentage Shareholding	Nationality
Libyan Foreign Bank	99.50%	Libyan
National Bank of Yemen	0.28%	Yemeni
Yemen Bank for Reconstruction & Development	0.22%	Yemeni
Total	100%	

As of 31st December 2015, the Bank's Directors and the senior Management do not own any shares in the Bank on an individual basis.

CORPORATE GOVERNANCE continued

4 THE BOARD OF DIRECTORS

4.1 Responsibilities of the Board

The Board of Directors is responsible for the overall business performance and strategy of the Bank. The Board's role and responsibilities include but are not limited to:

4.4 Evaluation of the Board

4.4.1 Appointment of Directors

As per the Bank Article of Association, the Bank shall be administered by a Board of Directors comprising not less than 3 Directors and not more than 9 Directors, appointed at the Annual General Meeting by secret ballot. The Board is appointed for a term of three years commencing on the date of the previous Board election. The appointment of the Board of Directors shall be based on the provision of Bahrain Commercial Company Law. The Board shall elect by secret ballot from its Directors, a Chairman and Deputy Chairman for the term of the Board. Board members adhere to Bank's Article of Association, the Corporate Governance Code of Conduct and all applicable laws and regulations. Additionally, the Bank's Article of Association lists all the situations which results of the Board member service termination, such as the Director failure to attend four consecutive meetings of the Board without lawful excuse.

A necessary information is provided to the directors subsequent to their appointment. The Board ensures that each new appointed Director receives all information to ensure his contribution to the Board from the commencement of his term, including meeting with senior management, presentations regarding the Bank's strategic plans, significant financial, accounting and risk management issues, compliance programs, its internal and independent auditors and legal counsel.

The Bank has a written appointment agreement with each Director, which recites the Directors' roles, duties, responsibilities and accountability, in addition to other aspects relating to their appointment including their terms, the time commitment envisaged, the committee assignments (if any), their remuneration & expense reimbursement entitlement, and access to independent professional advice as required.

CORPORATE GOVERNANCE continued

4 THE BOARD OF DIRECTORS CONTINUED

4.4 Evaluation of the Board

4.4.2 Assessment of the Board

The Bank’s Board mandate requires that the Board conducts an evaluation of its performance, including:

- An assessment of the Board’s operation;
- Completion of self-assessment questionnaire by each member;
- Review of the self-assessment undertaken;
- Bank’s strategies and risk assessments;

- Reviewing each Director’s work, his attendance at Board and committee meetings, and his constructive involvement in discussions and decision making;
- Observation of stakeholders on the Bank’s corporate governance performance; and
- Current and emerging trends and factors.

Board of Directors have conducted an independent self-assessment related to 2015, and the results will be forwarded to shareholders during the Annual General Meeting to be held on 18th April 2016. The Board of Directors have conducted the same exercise during 2015 and the findings of the report will be submitted to the shareholders during the next Annual General Meeting.

5 BOARD COMMITTEES

The Board has two committees namely the Audit, Risk & Compliance Committee (ARCC) and Nomination & Remuneration Committee (NRC). The ARCC consists of three members and NRC includes two members. All members of the committees are board members. In accordance with the CBB’s rulebook (Volume 1), the majority members of Board committees should be independent directors.

The compositions of the Board Committees as of 31st December 2015 are:

Board Committees	Member Name	Member Position	Independent / Non-Independent
Audit, Risk & Compliance Committee (ARCC)	Mr. Suleiman Esa Al Azzabi*	Chairman	Independent
	Mr. Talal Al Zain	Director	Independent
	Mr. Giuma Masaud Salem Kurdi	Director	Non-Independent
Nomination & Remuneration Committee (NRC)	Mr. Moraja Gaith Solaiman	Chairman	Independent
	Mr. Fathi Ahmed Yahia	Director	Non-Independent
	Mr. Talal Al Zain	Director	Independent

* Mr. Suleiman Esa Al Azzabi has completed his term.

5.1 Audit, Risk & Compliance Committee (ARCC)

The mandate of the Audit, Risk & Compliance Committee requires it, among other things, to:

- Assist the Board in fulfilling its statutory and fiduciary responsibilities with respect to internal controls, accounting policies, auditing and financial reporting practices;
- Assist the Board in its oversight of the integrity and reporting of the Bank’s quarterly and annual financial statements;
- Review the performance and approve activities, staffing and organizational structure of the internal audit function;
- Oversee the independence and performance of the external auditors as well as recommending the appointment, replacement and compensation of external auditors;
- Review the adequacy and effectiveness of the Bank’s system of financial, accounting and risk management controls and practices;
- Oversee the Bank’s compliance with laws, regulations and supervisory and internal policies;

- Regularly report to the Board about the committee activities and related recommendations and review any reports the Bank issues that relate to the committee responsibility;
- Maintaining oversight of the Bank’s internal risk and capital management framework and systems and to review on an annual basis, the effectiveness of its systems;
- Articulating the Bank’s risk tolerance against which to compare the amount of capital at risk on a forward-looking basis, as determined by exposures to credit, market, liquidity, operational, concentration, settlement, reputational and business cycle risks;
- Ensuring that senior management continues to take necessary steps to monitor and control the Bank’s exposures through appropriate risk assessment and compliance to risk management policies;
- Approve risk management objectives, strategies, policies and procedures that are in line with the Bank’s business lines, risk profile and risk appetite and in compatibility with the CBB rules and regulations and review them on annual bases. The Committee’s approvals shall be communicated to those who are responsible for the implementation of risk management policies;

CORPORATE GOVERNANCE continued

5 BOARD COMMITTEES CONTINUED

5.1 Audit, Risk & Compliance Committee (ARCC)

- Ensure that the Bank’s risk management framework includes methodologies to effectively assess and manage credit, market, liquidity, operational, legal, profit / rate of return, and reputational risks;
- Ensure the existence of clear lines of authority and accountability for managing, monitoring and reporting risks as preformed internally and as required by CBB;
- Ensure that the risk management function has adequate resources and appropriate access to information to enable it to perform its duties effectively;
- Overseeing the compliance function of the Bank;
- The Committee will review the effectiveness of the system for monitoring financial and disclosure compliance with legal and regulatory requirements, and the compatibility with the CBB rules and regulations that will be reviewed on annual bases and the results of management’s investigations and follow-up (including disciplinary action) of any fraudulent actions or non-compliance;
- The Committee will ensure that the compliance function is adequately resourced, independent of business lines and is run by individuals not involved in day-to-day running of the various business areas;
- The Committee will ensure controls are instituted to manage the Bank’s financial reporting quality and integrity;
- The Committee will ensure that management develops, implements and oversees the effectiveness of comprehensive know your customer standards, as well as ongoing monitoring of accounts and transactions, in keeping with the requirements of relevant regulations and best practice;
- Review the findings of any examinations by regulatory agencies;

The Management Committee members are:

Management Committees

Asset and liability Committee (ALCO)

Management Risk Committee (MRC)

Human Resource and Compensation Committee (HRCC)

5.2 Nomination & Remuneration Committee (NRC)

The mandate of the Nomination & Remuneration Committee requires it, among other things, to:

- Ensure a formal and transparent Board nomination process is in place;
- Give full consideration to succession planning for directors (in particular the Chairman and the Chief Executive Officer) and other senior management (such as the direct reports of the Chief Executive Officer);
- Ensure effective policies and processes are in place for ensuring that executive management have the necessary integrity, technical and managerial competence and experience;
- Periodically review the time required from non-executive directors. Performance evaluation should be used to assess whether the non-executive directors are spending enough time to fulfil their duties;
- Report annually to the Board with an assessment of the Board’s performance;
- Determine and agree with the Board the framework or broad policy for the remuneration of the directors, the Chief Executive Officer and senior management;
- Review and assess the adequacy of the Bank’s policies and practices on corporate governance and recommend any proposed changes to the Board for approval; and
- Review the adequacy of the charter adopted by NRC committee of the Board, and recommend changes whenever necessary;

6 MANAGEMENT COMMITTEES

There are three management level committees namely Asset and liability Committee (ALCO), Management Risk Committee (MRC), and Human Resource and Compensation Committee (HRCC).

Management Committees	Member Position	Committee Member Position

	Head of Financial Control	Member
	Head of Business Development	Member
	Head of Treasury & Investments	Member
	Head of Risk Management and Compliance	Member
	Head of Operations	Representative
Management Risk Committee (MRC)	Chief Executive Officer	Head
	Head of Financial Control	Member
	Head of Business Development	Member
	Head of Operations	Member
	Head of Treasury & Investments	Member
	Head of Risk Management and Compliance	Representative
Human Resource and Compensation Committee (HRCC)	Chief Executive Officer	Head
	Head of Human Resources and Administration	Member

CORPORATE GOVERNANCE continued

6.1 Asset and Liability Committee (ALCO)

The mandate of the Asset and Liability Committee requires it, among other things, to:

- Active management of the balance sheet;
- Effectively manage the Bank's liquidity requirements to meet business needs during normal conditions and during times of crisis;
- Monitor asset/liability maturity profile taking into account economic developments, fluctuations in asset values and benchmark reference rates;
- Management of foreign exchange risks;
- Within Board approved parameters, develop asset and liability management strategies, including liquidity strategies, and short and long-term funding and leverage strategies in general;
- Review the Bank's capital adequacy position and address capital management strategies from an ICAAP perspective;
- Review and monitor all aspects of liquidity policy including contingency planning and limits to ensure management of liquidity crisis;
- Review and approve or reject breaches of ALCO limits; and
- Review of reports submitted by Risk and Compliance Department.

6.2 Management Risk Committee (MRC)

The mandate of the Management Risk Committee requires it, among other things, to:

- Determine key risk areas and adopt risk management practices that contribute to the Bank's objectives;
- Ensure actions required are given appropriate level of sponsorship and supported by adequate resources;
- Increase the awareness level of management and staff on business risks in the Bank;
- Review and recommend to the Board the risk tolerance of the Bank;
- Review the Bank's mitigation strategy for key risks;
- Review and recommend for approval the Bank's risk management framework;
- Review the capital adequacy of the Bank's capital from regulator's perspective;
- Review and assess the adequacy of the risk measurement methodologies;
- Review and assess various internal limits and make specific recommendations with respect to Economic Risk Capital, market risk limits, ALM limits, etc;
- Review other major risk concentration as deemed appropriate; and
- Approve Operational Risk framework and monitor the risk on ongoing basis.

6.3 Human Resources & Compensation Committee (HRCC)

The mandate of the Human Resources & Compensation Committee requires it, among other things, to:

- Review regularly and recommend Bank's executive/staff development for senior management positions, including performance and skills evaluation, training and succession planning;
- Develop, review and recommend the Bank's executive/staff compensation;
- Determine the bonus and other incentive;
- Review matters relating to executive management succession and executive organization development;
- Manage the administration function of the Bank's; and
- Prepare periodic reports for the Board regarding the above items.

7 APPROVAL AUTHORITY STRUCTURE

The materiality level for transactions that require Board approval varies for different activities and is governed by the Board approved Delegation of Authority document and Credit Facility Approval Authority Matrix.

- In addition, as per the Bank Board Charter, decisions made by the Board, other than those made at Annual General Meetings and Extraordinary General Meetings may be made through circulation. The Board's decisions shall be considered by a vote of the majority of the attending members or in accordance with regulatory requirements. In case of equality of votes, the Chairman of the Board shall have the casting vote. The dissenting member may record his/her dissent. In all such cases: The secretary shall ensure and confirm circulation of necessary information and documentation; and
- A decision through circulation will not be valid unless approved by majority.

Furthermore, the Bank has a proper credit due-diligence procedure for all type of facilities/exposures either with the transaction is being a related party or non-related party transaction.

8 CODE OF CONDUCT AND CONFLICT OF INTEREST

The Bank has adopted Code of Conduct and other internal policies and guidelines designed to guide all employees and directors through best practices to fulfill their responsibilities and obligations towards the Bank's stakeholders in compliance with all laws, rules and regulations that govern the Bank's business operations. The Code of Conduct contains rules on conduct, ethics and on avoiding conflict of interest applicable to all the employees and directors of the Bank. The Code of Conduct is documented, published and communicated throughout the Bank. The Bank has an annual declaration of Conflict of Interest statement for Board members and approved persons, during 2015 no issues related to the conflict of interest have arisen. Additionally, as per the Board appointment agreement each director has the responsibility to disclose any material interest related to business transactions and agreements and gave them the privilege of accessing to independent professional advice if required. The Bank's website also contains the Board approved Code of Conduct.

The Bank set up a Whistle-blowing framework that enhances good governance and transparency within the Bank. The Bank is committed in maintaining the highest possible standards of ethical and legal conduct while conducting its operations.

CORPORATE GOVERNANCE continued

9 COMMUNICATIONS

In compliance with CBB regulations under PD Module of the Volume 1 of CBB Rulebook, the Bank has a Board approved public disclosure policy that discloses material information about its activities to various stakeholders of the Bank.

The disclosure policy applies to all modes of communication to the public including written, oral and electronic communications. These disclosures are made on a timely basis in a manner required by applicable laws and regulatory requirements.

Management seeks to respond to shareholders' questions and concerns on a prompt basis, subject to the limitations imposed by law and the confidentiality of certain information. The Bank maintains a website at www.alubafbank.com, which includes information of interest to various stakeholders including the regulatory authorities. Information available on the website includes the Annual Report and reviewed quarterly financials of the Bank and others.

10 ANTI-MONEY LAUNDERING

The Bank's anti money laundering (AML) policy intended to ensure that the Bank has a comprehensive framework of policies and procedures including best practice standards for combating money laundering and terrorist financing. The policies and procedures are anticipated to prevent the Bank's operations activities from being used by others for unlawful purposes.

The Bank's policy prohibit and actively prevent money laundering and any activity that facilitate money laundering or funding of terrorist or criminal activities by comply with the AML laws and regulations of the jurisdiction in which it undertakes business activities and as per compliance program.

The Bank committed to provide periodic training and information to ensure that all affected employees are aware of their responsibilities under the AML law and Central Bank of Bahrain regulation. The Bank provides up to date AML training for relevant staff that is appropriate to the Bank's activities and its differing types of customers.

11 FINANCIAL YEAR 2015 COMPLIANCE

Enhancement Initiative

The Bank is complying with the CBB requirement set out in section HC-1.5.2 of the High Level Controls Module of the CBB Rulebook related to the level of independency of at least one third of the board members.

This level of independent directors have not enable the Bank to comply with the CBB requirements in sections HC-3.2.1, HC 4.2.1 & HC 5.2.1 related to Audit, Nomination & Remuneration committees composition.

The Bank will take the necessary actions and initiatives to address the level of independent members within committees as well as will keep CBB informed at all times.

The bank is committed to adopt the best banking practice of governance and in our endeavors to be compliant with the HC Module of the Central Bank of Bahrain in the near future.

12 REMUNERATION TO EXTERNAL AUDITORS

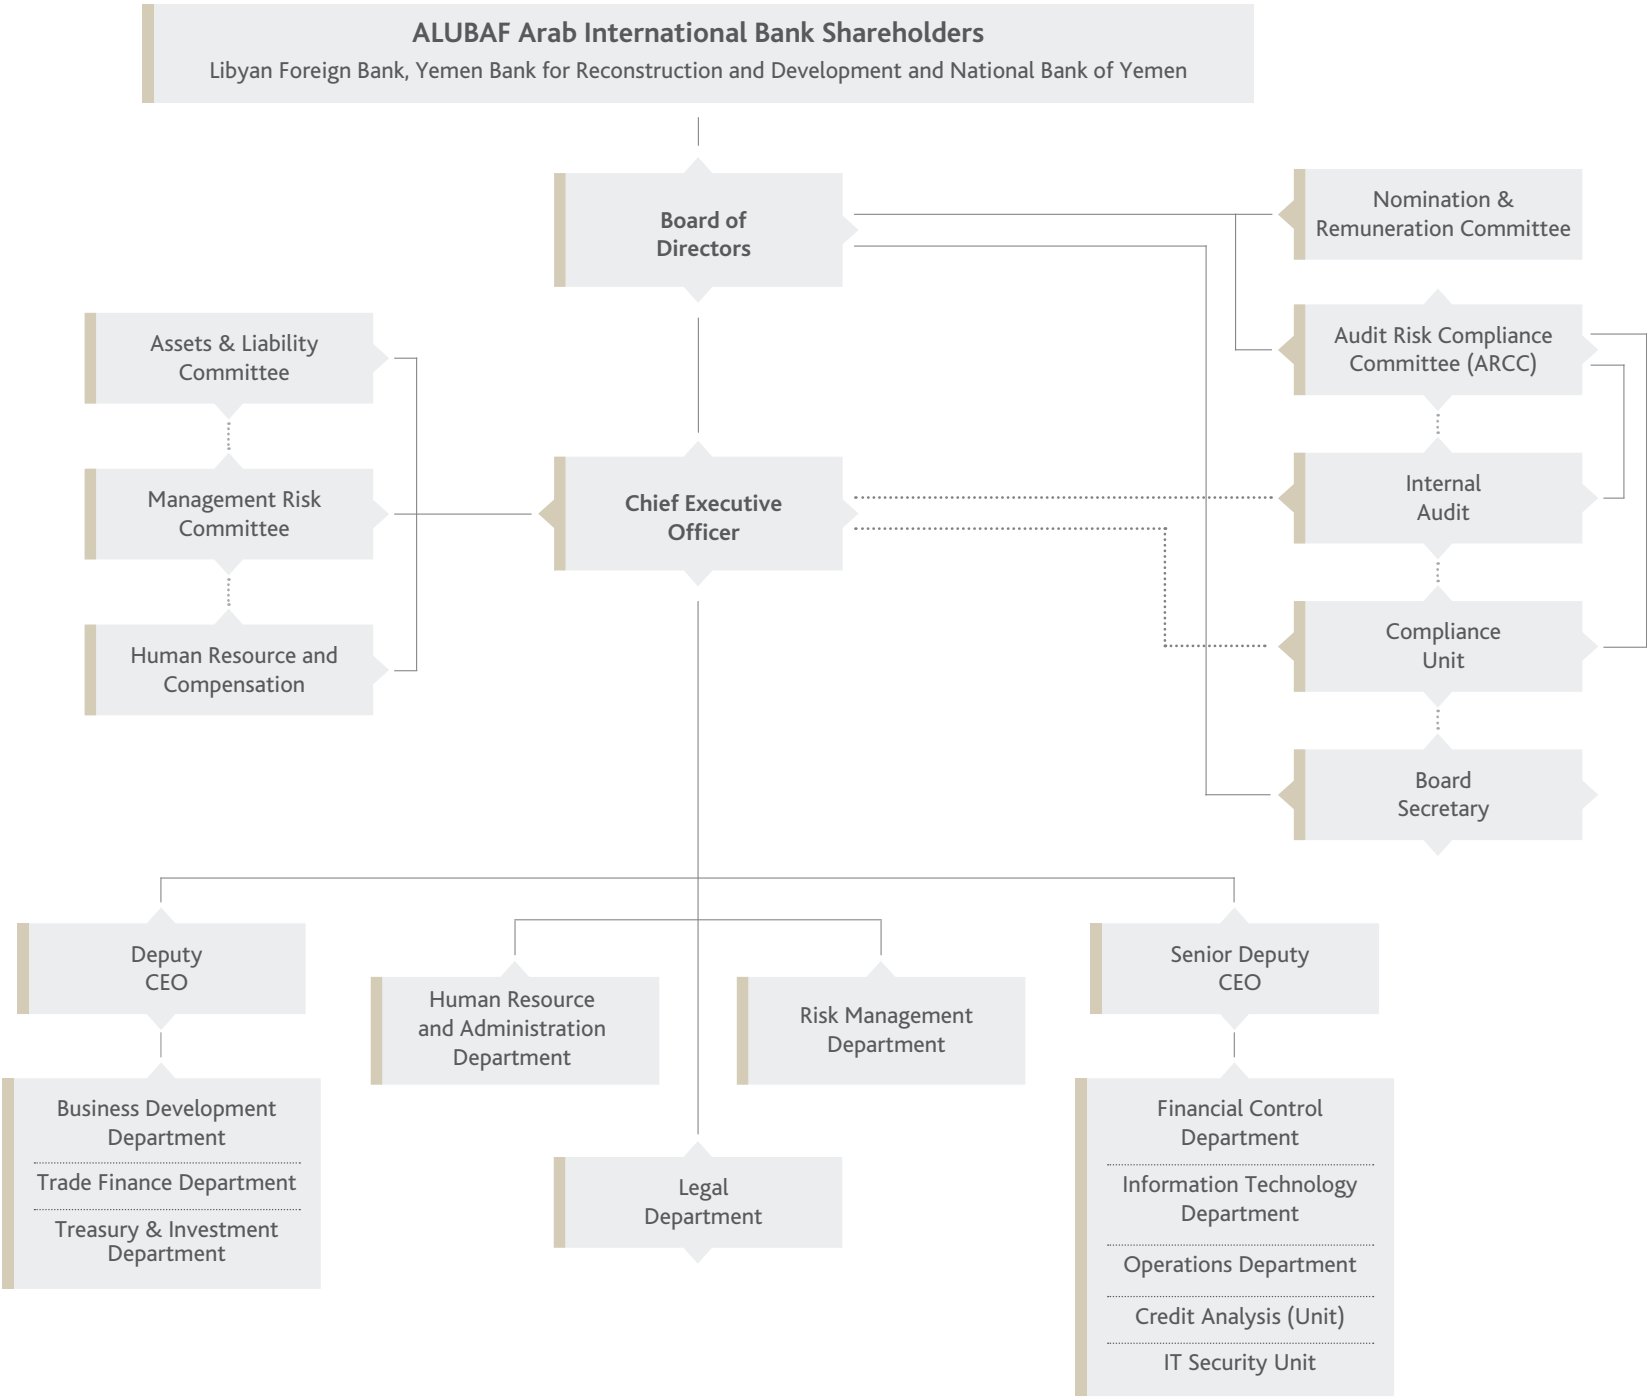

In 2015, the Bank has paid its external auditors, Messers Ernst & Young, US\$ 109 Thousand for audit and other audit related service fees (included prudential information reports reviews, quarterly reviews, anti money laundering review, public disclosures reviews). Messers Ernst & Young have expressed their willingness to continue as the auditors of the Bank for the Financial year ending 31st December 2016. The Audit Risk Compliance Committee (ARCC) has recommended the appointment of Ernst & Young and a resolution proposing their re-appointment will be presented at the Annual General Assembly meeting which will be held on 18 April 2016.

Break down of audit fee and other non-audit related services fee paid to external Auditors is given below:

	2015 USD'000s	2014 USD'000s
Audit and other audit related service fee	109	69
Non Audit services fee	-	-
Total	109	69

INTRODUCTION

This document has been prepared in accordance with CBB new remuneration disclosure requirements for Wholesale Banks under CBB rulebook (Volume 1 – Conventional Banks).

CORE REMUNERATION POLICY

The fundamental principles underlying our remuneration policy which has been approved by the Board of Directors of the bank and approved by shareholders at the Annual General Meeting held on 12th April 2015.

- The Bank's approach to "Pay and Benefits" incorporates a number of important objectives designed to support the Bank's policy to attract, motivate and retain qualified employees needed to meet its overall long-term business plans. These include rewarding each employee based on individual overall contribution and performance, ensuring the Base Salary, discretionary Bonus and benefits are competitive within the market place, but with costs that are sustainable by the Bank and ensuring that internal equity is always maintained.
- The Bank maintains a salary structure which reflects the relationship of job positions to each other and their place in the appropriate financial and business market place.
- It is the Banks intention to reward employees in a way which reflects merit. Merit being defined as how well an individual employee performs in relation to the objectives and requirement of the job. It is a policy of better pay for better performance.
- The major components of this overall approach are:
 - Base Compensation for the individual employee's overall contribution & performance.
 - This merit based approach is particularly applied to the Base salary and discretionary Bonus elements of total compensation. The level of overall contribution and performance is assessed through setting objectives, performance appraisal and performance ranking process. Emphasis is on performance evaluations that reflect individual performance including adherence to the Bank's risk and compliance policies in determining the total remuneration for a position
 - Market environment
 - The financial service sector in which the Bank operator's is reviewed periodically, to ensure that the Bank salary and benefits remain competitive.
 - Operating Costs
 - Market competitiveness must always be balanced by the cost that the Bank can support to ensure that it meets its short and long-term business objectives.
 - Internal Equity
 - Internal equity is maintained through consistent job matching. The objective is to ensure that jobs with similar dimensions, know-how, complexity and accountability are graded at consistent levels across the Bank.
 - Salary Ranges
 - The Bank uses a structure of salary ranges against which salaries are administrated. Each grade is assigned a salary range within which salaries should be administered. These ranges allow room for different salaries to be

paid to employees in the same grade based on experience in the job, and on overall contribution and performance and they also provide a basis for managing within costs limits.

- The Bank has a well-defined variable pay scheme in place, to support the NRC, should they decide to pay variable pay or bonus in any performance period;
- Variable pay will be determined based on achievement of targets at the Bank level, unit level and individual level;
- Variable pay scheme is designed in a manner that supports sound risk and compliance management. In order to achieve that goal:
 - Performance metrics for applicable business units are risk-adjusted where appropriate;
 - Individual award determinations include consideration of adherence to compliance-related goals.
- The remuneration package of employees in Control and Support functions are designed in such a way that they can function independent of the business units they support. Independence from the business for these employees is assured through:
 - Setting total remuneration to ensure that variable pay is not significant enough to encourage inappropriate behaviours while remaining competitive with the market;
 - Remuneration decisions are based on their respective functions and not the business units they support;
 - Performance measures and targets are aligned to the Bank and individual objectives that are specific to the function;
 - Respective function's performance as opposed to other business unit's performance is a key component for calculating individual incentive payments.
- Both qualitative and quantitative measures will be used to evaluate an individual's performance across the Bank

The Bank will review the salaries and benefits once in to 2 years, with an objective of maintaining competitive advantage in the market, based on salary surveys and market information gathered through secondary sources.

The Bank does not provide for any form of severance pay, other than as required by the Labour Law for the Private Sector Law No.36 of 2012 of the Kingdom of Bahrain, to its employees. Under exceptional circumstances and subject to NRC approval the Bank might offer sign on bonus or minimum variable pay for any new recruit limited to first year of employment only.

The Bank would not allow any of its employees identified as approved persons as per CBB guidelines, to take any benefits from any projects or investments which are managed by the Bank or promoted to its customers or potential customers except for Board related remuneration linked to their fiduciary duties to the investors of the project/investment including those appointed as members of the board of special purpose vehicles or other operating companies set up by the Bank for projects or investments.

SOUND REMUNERATION DISCLOSURE 2015 continued

REGULATORY ALIGNMENT

The Bank has reviewed and revised the Bank's remuneration policy and especially its variable pay policy to meet the requirements of the CBB Guidelines on remuneration with the help of external consultants.

Governance

The composition of the Board Nomination and Remuneration Committee (NRC) is as required by the CBB remuneration guidelines and is chaired by an Independent Director. The NRC charter has been revised in line with the requirements of the CBB guidelines and the Committee will be responsible for the design, implementation and supervision of the remuneration policy. The Committee utilised the services of an external consultant to re-design and implement the revised remuneration policy aligned to the CBB guidelines on remuneration.

Remuneration policy

The Bank has revised the variable pay policy in light of the CBB remuneration guidelines and the key feature are:

- The pay mix for the CEO, Senior management in Business units and the Material Risk takers has been revised in such a way that their variable pay component is higher than the fixed pay component subject to achieving the risk adjusted targets both at the business unit and the bank level.
- For staff in Control and Support functions the pay mix is structured as more fixed and lesser variable pay. Further the variable pay, for staff in Control and Support Functions, is based on their units target and individual performance and not linked directly to the overall bank's performance.

Variable Pay

Computation of variable pay pool for CEO, Senior Management and Business Units

The Variable pay computation process of the bank has been refined to include the following features:

- The variable pay of the CEO, members of the senior management team and the employees in business units is directly linked to the bank, business unit and individual's performance;
- The performance measures include both financial and qualitative targets aligned to short term and long term business strategy of the bank and is set at both the bank and the individual level;
- The variable pay pool is determined primarily based on a hybrid approach i.e. both top down and bottom up approach. The total bonus pool is set at a maximum percentage of the risk adjusted net profit for the financial year. This is supplemented by bottom up computation i.e. by setting base multiples of monthly salary per level and aggregating the multiples per unit and then on to the bank level. In addition the target setting process considers the variable pay pool as self-funding, i.e. targets are set net of variable pay pool for achieving that target;
- Ex-ante risk assessment framework has been introduced as part of the target setting process. The risk assessment framework considers all types of risks including impact on capital adequacy, liquidity and qualitative risk elements such as reputation,

compliance, quality of earnings, etc. with each element assigned appropriate weights as deemed necessary by the NRC;

- In determining the variable pay pool at the performance period end, the NRC would consider post risk assessment outcomes and has a well defined mechanism to re-adjust the target achieved and thereby the total variable pay pool;
- The design of the variable pay pool computation aligns the interest of the employees to that of the shareholders and it increases or decreases as per the target achieved, i.e. the variable pay pool will be nil or considerably less if the bank makes a loss or achieves less than the expected target;
- The NRC in order to mitigate the risk involved in rewarding for potential revenues considers the following in the variable pay distribution:
 - The target setting process considers the realised versus unrealised profit mix;
 - Introduction of deferral of variable pay over 3 years;
- The Bonus for the CEO, his deputies and Material Risk Takers and Approved persons as per CBB and whose total remuneration exceeds the regulatory threshold has a deferral element and share linked payment. Phantom or Shadow shares are being offered to such staff.
- The deferral arrangements are as follows:
 - CEO, his deputies and top 5 Senior Management members (in terms of total remuneration) in Business units:
 - 40% of the variable pay will be paid in cash at the end of the performance period; and
 - The balance 60% will be deferred over a period of 3 years with 10% being cash deferral and 50% being phantom or shadow shares and the entire deferred variable pay will vest equally over a 3 year period and the phantom or shadow shares can be encashed after 6 months from the vesting date.
 - For all other employees in Business units and Approved persons in Control and Support Functions and whose total remuneration exceeds the regulatory threshold:
 - 50% of the variable pay will be paid in cash at the end of the performance period; and
 - 10% in the form of phantom or shadow shares at the end of the performance period which can be encashed by the employee after 6 months.
 - The balance 40% will be deferred over a period of 3 years and paid in the form of phantom or shadow shares and vests equally over the 3 year period and can be encashed after 6 months from the vesting date.
- Introduction of claw back and malus clauses whereby the NRC has the right to invoke these clauses under certain pre-defined circumstances wherein the bank can claw back the vested as well as the unvested bonus paid or payable to an employee. Some of the conditions are:
 - Where there is reasonable evidence of material error or culpability for a breach of Bank's policy by the employee(s);
 - The Bank or the Business Unit suffers material losses or significant loss of business which could be attributed to the actions of the employee(s);

SOUND REMUNERATION DISCLOSURE 2015 continued

- Where the employee(s) could be held responsible for material failure of risk management; and
- Where there is evidence of fraud or collusion amongst employees or by employee(s) with third parties and which is prosecutable in a court of law
- Based on ex-post risk assessment if the bank and/or a relevant line of business or an employee is found to have been paid bonus for a result which was much higher than actually realised, the NRC might invoke the malus clause by which any unvested portion payable during that year will be reduced in proportion to the reduction in the actual results versus expected results

Computation of Variable Pay – Control and Support Units

- The Unit targets as set out and agreed with the NRC in the beginning of each evaluation period will be the base for Variable pay to be paid.
- Except in the case of bank making a loss, the variable pay for the staff in the Control and Support unit, would be payable based on the Unit targets and the individual performance.
- Base Bonus Multiples are set by grade for all the Control and Support units.
- The bonus is computed as:
 - Base Multiple x Unit Score x Individual Score
- In years when the bank achieves exceptional profits, at the discretion of NRC, the base multiples for Control and Support unit could be increased as deemed fit by the NRC.
- Bonus will be deferred, for those employees whose total remuneration exceeds the regulatory threshold currently set at BD 100,000 per annum, as follows:
- All employees of Control and Support units whose Variable Pay is subject to deferral, the deferral will be as follows:
 - 50% of the variable pay will be paid in cash at the end of the performance period; and
 - 10% will be paid in the form of phantom or shadow shares at the end of the performance period which can be encashed by the employee after 6 months.
 - The balance 40% will be deferred over a period of 3 years and paid in the form of phantom or shadow shares and vests equally over the 3 year period
- The Variable Pay is subject to clawback and the unvested portion of deferred pay is subject to Malus as explained earlier for the computation of variable pay for Business units.

The Summary of the Variable pay process is:

- The NRC has the overall responsibility for computation and approval of the variable pay across the bank;
- Links reward to bank, business unit and individual performance
- Target setting process considers risk parameters which are both quantitative and qualitative
- Aligned to time horizon of risk the bonus has a deferral element and a share linkage to align the employees interest with that of the shareholders

- Bonus can be lesser or nil if the bank or business units do not achieve the risk adjusted targets or make losses
- Post risk assessment is carried out to ensure that in case of material losses or realisation of less than expected income which can be attributed to employees actions the claw back or malus as appropriate is invoked

The NRC meet on 21st February 2016, to review the performance of the bank for year 2015 in order to determine the bonus pool for year 2015. The following were the outcome of the meeting:

- The actual result as compared to the target adjusted for the agreed risk factors was lower. Accordingly the total bonus pool for the year 2015 was computed and it is lower as compared to the previous year.
- The CEO and Senior Management bonus is aligned to the performance of the bank and their respective individual performance. Given that the bank did not achieve the target the senior management bonus is lower as compared to previous year.
- In distributing this bonus pool to the individual business units, the performance of each business unit was considered and as a result the bonus pool allocation to the business units is different and higher for the business unit which achieved it targets and lower for the business unit which did not achieve the target.
- The current risk matrix was reviewed to make sure that it covered the impact of current and future risks that the bank is faced with.
- The Control and Support function employees were awarded bonus based on the performance of the respective unit and their individual performance as per the goals and objectives agreed at the beginning of the year and in such a way that their total pay is weighted more towards fixed pay.
- Based on the ex-post risk assessment with respect to the bank's performance for the year ended 31st December 2014 and that there are no reasons to invoke clawback or malus clause against any Business unit or individual employee, NRC resolved to release the 1ST portion of Year 2015 vested phantom shares and cash to the employees whose variable pay was deferred. The phantom shares shall vest at the net book value (NBV) as of 31 December 2015.
- The NRC reviewed the overall remuneration policy to see if it requires any amendments or refinements. The committee believes that the current policy does not require any changes for the forthcoming year.

Board remuneration

As per the Board charter, the Board, based upon the recommendation of the Nomination and Remuneration committee and subject to the laws and regulations, determines the form and amount of Director Compensation. The Committee shall conduct an annual review of director compensation. Furthermore, as per the Bank's Article of Association, the General Assembly may prescribe the remuneration of the members of the Boards of Directors, provided that total of such remuneration shall not exceeds ten percent (10%) of the profit in any one financial year after allowing for the transfer to legal reserves and after allowing for the distribution to the shareholders of a dividend totalling not less than five percent (5%) of the capital of the company.

SOUND REMUNERATION DISCLOSURE 2015 continued

Nomination & Remuneration committee (NRC) Members

NRC Members	Position	Independent / Executive	Appointment Date	Number of Meetings Attended
Mr. Moraja Gaith Solaiman	Chairman	Independent	1-Nov-12	1
Mr. Talal Ali Abdulla Al Zain	Director	Independent	21-Jan-15	1
Mr. Fathi Ahmed Yahia	Director	Non- Executive	1-Nov-12	1

Nomination & Remuneration committee (NRC)

The mandate of the Nomination & Remuneration Committee requires it, among other things to:

- Ensure a formal and transparent Board nomination process is in place;
- Give full consideration to succession planning for directors (in particular the Chairman and the Chief Executive Officer) and other senior management (such as the direct reports of the Chief Executive Officer);
- Periodically review the time required from non-executive directors. Performance evaluation should be used to assess whether the non-executive directors are spending enough time to fulfil their duties;
- Report annually to the Board with an assessment of the Board's performance;
- Review and assess the adequacy of the Bank policies and practices on corporate governance and recommend any proposed changes to the Board for approval ;
- Review the adequacy of the charter adopted by NRC committee of the Board, and recommend changes whenever necessary.
- The Nomination and Remuneration Committee shall be responsible for the design, implementation and supervision of the remuneration policy. In particular, the NRC shall:
- Design all the elements of remuneration including fixed salary, allowances, benefits and variable pay scheme for all levels of employees in the Bank. In designing the Remuneration Policy, the NRC shall consider the Core Remuneration Policy of the

Bank, the business strategy of the Bank, the regulatory pronouncements of the Central Bank of Bahrain and the labour laws of the Kingdom of Bahrain;

- Obtain approval of the Board of Directors and subsequently the Shareholders on the Remuneration Policy adopted by the Bank;
- Approve the Remuneration Policy and remuneration for each Approved Person and Material Risk-Taker;
- Approve targets and associated risk parameters, and variable pay for achieving the set target for each performance period;
- Approve total variable remuneration to be distributed, considering the total remuneration including salaries, fees, expenses, bonuses and other employee benefits at the end of the performance period based on the evaluation of actual performance as against the target for the performance period;
- Monitor and review the remuneration system on a regular basis to ensure the system operates as intended;
- Undertake stress testing of the variable pay on a periodic basis to ensure that the variable pay scheme does not affect the Bank's solvency and risk profile, and its long term objectives and business goals;
- Undertake back testing to adjust for ex-post risk adjustments to the variable pay paid in earlier years and if required invoke claw back or malus; and
- Recommend Board Member remuneration based on their attendance and performance and in compliance with Article 188 of the Company Law.

Details of remuneration paid to Board of Directors

	2015 USD'000s	2014 USD'000s
Sitting fee, accommodation and travel allowance	361	346
Remuneration *	600	500
Others	0	0

* Accrued expenses (Remuneration paid for 2014 amounted to USD 374 thousand)

* Remuneration accrued for NRC members for 2015 amounts to USD 300 thousand (Paid in 2014: USD 264 thousand)

All deferred and long-term awards are subject to malus provisions. All share awards are released to the benefit of the employee after a six-month retention period from the date of vesting. The number of equity share awards is linked to the Bank's share price as per the rules of the Bank's share incentive scheme. Any dividend on these shares is released to the employee along with the shares (i.e., after the retention period).

INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF ALUBAF ARAB INTERNATIONAL BANK B.S.C.(c)

Report on the financial statements

We have audited the accompanying financial statements of Alubaf Arab International Bank B.S.C. (c) ('the Bank'), which comprise the statement of financial position as at 31 December 2015 and the statements of profit or loss, comprehensive income, cash flows and changes in equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

Board of Directors' responsibility for the financial statements

The Board of Directors is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control as the Board of Directors determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Bank as of 31 December 2015, its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

Report on other regulatory matters

As required by the Bahrain Commercial Companies Law and the Central Bank of Bahrain (the CBB) Rule Book (Volume 1), we report that:

- a) the Bank has maintained proper accounting records and the financial statements are in agreement therewith; and
- b) the financial information contained in the Report of the Board of Directors is consistent with the financial statements.

We are not aware of any violations of the Bahrain Commercial Companies Law, the Central Bank of Bahrain and Financial Institutions Law, the CBB Rule Book (Volume 1 and applicable provisions of Volume 6) and CBB directives, or the terms of the Bank's memorandum and articles of association during the year ended 31 December 2015 that might have had a material adverse effect on the business of the Bank or on its financial position. Satisfactory explanations and information have been provided to us by management in response to all our requests.

Partner Registration Number: 115

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2015

1. Activities

ALUBAF Arab International Bank B.S.C. (c) (the "Bank") is a closed Bahraini joint stock company incorporated in the Kingdom of Bahrain and registered with the Ministry of Industry and Commerce under Commercial Registration (CR) number 12819. The Bank operates under a wholesale banking license issued by the Central Bank of Bahrain (the "CBB") under the new integrated licensing framework. The Bank's registered office is at Building 854, Road 3618, Avenue 436, Alubaf Tower, Al-Seef District, PO Box 11529, Manama, Kingdom of Bahrain.

The Bank is majority owned by Libyan Foreign Bank, a bank registered in Libya (refer note 13 for more details).

The financial statements of the Bank for the year ended 31 December 2015 were authorised for issue in accordance with a resolution of the Board of Directors on 21 February 2016.

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

2.1. Basis of preparation

The financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and are in conformity with the Bahrain Commercial Companies Law ("BCCL") the Central Bank of Bahrain ("CBB") and Financial Institutions Law, the CBB Rule Book (Volume 1 and applicable provisions of Volume 6) and the relevant CBB directives.

Basis of measurement

The financial statements have been prepared on a historical cost basis, except for derivative financial instruments, trading investments and available-for-sale (AFS) financial assets that have been remeasured at fair value.

Functional and presentation currency

The financial statements are presented in United States Dollars (US\$), being the Bank's functional currency, and all value are rounded to the nearest thousand (US\$ '000), except when otherwise indicated.

The financial statements provide comparative information in respect of the previous period.

2.2. Summary of significant accounting policies

Financial instruments – initial recognition and subsequent measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets and financial liabilities

Financial assets of the Bank comprise cash and balances with banks, deposits with banks and other financial institutions, investments held for trading, non-trading investments, loans and advances, interest receivable and other assets. Financial liabilities of the Bank comprise deposits from banks and other financial institutions, due to banks and other financial institutions, due to customers, interest payable and other liabilities.

The specific accounting policies relating to various financial assets and liabilities are set out below:

i) Financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, available for sale financial assets, or as derivative instruments, as appropriate. All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Bank commits to purchase or sell the asset.

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2015

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.2 Summary of significant accounting policies (Continued)

Subsequent measurement

For purposes of subsequent measurement financial assets are classified in four categories:

- At fair value through profit or loss
- Loans and receivables
- Held-to-maturity
- Available-for-sale

a) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held for trading. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. These are subsequently measured at fair value with any realised and unrealised gains and losses arising from changes in fair values being included in the statement of profit or loss in the period in which they arise. Interest earned and dividends received in respect of financial assets at fair value through profit or loss are included in 'interest and similar income' and 'dividend income' respectively.

b) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method, less impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in 'interest and similar income' in the statement of profit or loss. The losses arising from impairment of loans and receivables are recognised in the statement of profit or loss.

c) Held-to-maturity

Non-derivative financial assets with fixed or determinable payments and fixed maturities are classified as held-to-maturity when the Bank has the positive intention and ability to hold them to maturity. After initial measurement, held-to-maturity financial assets are measured at amortised cost using the EIR, less impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as 'interest and similar income' in the statement of profit or loss. The losses arising from impairment are recognised in the statement of profit or loss.

d) Available-for-sale

Available-for-sale financial assets include equity investments and debt securities. Equity investments classified as available-for-sale are those that are neither classified as held for trading nor designated at fair value through profit or loss. Debt securities in this category are those that are intended to be held for an indefinite period of time and that may be sold in response to needs for liquidity or in response to changes in the market conditions.

After initial measurement, available-for-sale financial assets are subsequently measured at fair value with unrealised gains or losses recognised in other comprehensive income and credited in the fair value reserve until the investment is derecognised, at which time the cumulative gain or loss is recognised in other operating income, or the investment is determined to be impaired, when the cumulative loss is reclassified from the fair value reserve to the statement of profit or loss.

The Bank evaluates whether the ability and intention to sell its available-for-sale financial assets in the near term is still appropriate. When, in rare circumstances, the Bank is unable to trade these financial assets due to inactive markets, the Bank may elect to reclassify these financial assets if the management has the ability and intention to hold the assets for foreseeable future or until maturity.

For a financial asset reclassified from the available-for-sale category, the carrying amount at the date of reclassification becomes its new amortised cost and any previous gain or loss on the asset that has been recognised in equity is amortised to profit or loss over the remaining life of the investment using the EIR. Any difference between the new amortised cost and the maturity amount is also amortised over the remaining life of the asset using the EIR. If the asset is subsequently determined to be impaired, then the amount recorded in equity is reclassified to the statement of profit or loss.

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2015

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.2 Summary of significant accounting policies (Continued)

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Bank's statement of financial position) when:

- The rights to receive cash flows from the asset have expired; or
- The Bank has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Bank has transferred substantially all the risks and rewards of the asset, or (b) the Bank has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Bank has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Bank continues to recognise the transferred asset to the extent of the Bank's continuing involvement. In that case, the Bank also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Bank has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Bank could be required to repay.

Impairment of financial assets

The Bank assesses, at each reporting date, whether there is objective evidence that a financial asset or a group of financial assets is impaired. An impairment loss exists if one or more events that has occurred since the initial recognition of the asset (an incurred 'loss event'), has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

The impairment assessment of different categories of financial assets are discussed below:

a) Financial assets carried at amortised cost

For financial assets carried at amortised cost, the Bank first assesses individually whether objective evidence of impairment exists for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Bank determines that no objective evidence of impairment exists for an individually assessed financial asset, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment of impairment.

The amount of any impairment loss identified is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate.

The carrying amount of the asset is reduced through the use of an allowance account and the loss is recognised in the statement of profit or loss. Interest income continues to be accrued on the reduced carrying amount and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. Financial assets carried at amortised cost, together with the associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realised or has been transferred to the Bank. If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. If a write-off is later recovered, the recovery is credited in the statement of profit or loss.

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2015

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.2 Summary of significant accounting policies (Continued)

b) Available-for-sale

For available-for-sale financial assets, the Bank assesses at each reporting date whether there is objective evidence that an investment or a group of investments is impaired.

In the case of equity investments classified as available-for-sale, objective evidence would include a significant or prolonged decline in the fair value of the investment below its cost. 'Significant' is evaluated against the original cost of the investment and 'prolonged' against the period in which the fair value has been below its original cost. When there is evidence of impairment, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that investment previously recognised in the statement of profit or loss – is removed from other comprehensive income and recognised in the statement of profit or loss.

Impairment losses on equity investments are not reversed through profit or loss; increases in their fair value after impairment are recognised in other comprehensive income.

The determination of what is 'significant' or 'prolonged' requires judgement. In making this judgement, the Bank evaluates, among other factors, the duration or extent to which the fair value of an investment is less than its cost.

In the case of debt instruments classified as available-for-sale, the impairment is assessed based on the same criteria as financial assets carried at amortised cost. However, the amount recorded for impairment is the cumulative loss measured as the difference between the amortised cost and the current fair value, less any impairment loss on that investment previously recognised in the statement of profit or loss.

Future interest income continues to be accrued based on the reduced carrying amount of the asset, using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. If, in a subsequent year, the fair value of a debt instrument increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in the statement of profit or loss, the impairment loss is reversed through the statement of profit or loss.

ii) Financial liabilities

All financial liabilities are recognised initially at fair value.

Subsequent measurement

After initial recognition, financial liabilities are subsequently measured at amortised cost using the EIR method.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit or loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

iii) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2015

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.2 Summary of significant accounting policies (Continued)

Derivative financial instruments

The Bank makes use of derivative instruments, such as forward foreign exchange contracts.

Derivatives are initially recognised, and subsequently measured at fair value with transaction costs taken directly to the statement of profit or loss. The fair value of a derivative is the equivalent of the unrealised gain or loss from marking to market the derivative. Derivatives with positive fair values (unrealised gains) are included in other assets and derivatives with negative fair values (unrealised losses) are included in other liabilities in the statement of financial position.

Cash and cash equivalents

For the purpose of the statement of cash flows, cash and cash equivalents comprise cash and balances with banks, treasury bills and deposits with banks and other financial institutions with original maturities of 90 days or less.

Property, equipment and software

Property, equipment and software are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Expenditure incurred to replace a component of an item of property, equipment and software that is accounted for separately is capitalised and the carrying amount of the component that is replaced is written off. When significant parts of property, equipment and software are required to be replaced at intervals, the Bank depreciates them separately based on their specific useful lives. Land is not depreciated. Repair and maintenance costs are recognised in profit or loss as incurred.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets, as follows:

Assets	Estimated useful life in years
Building	15
Furniture, equipment and vehicles	3 to 5
Software	3 to 5

An item of property and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit or loss when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, equipment and software are reviewed at each financial year end and adjusted prospectively, if appropriate.

Impairment of non-financial assets

The Bank assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Bank estimates the asset’s recoverable amount. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount, with the difference being recognised as an impairment in the statement of profit or loss.

Renegotiated loans

In the ordinary course of its business, the Bank seeks to restructure loans. This may involve extending the payment arrangements and the agreement of new loan conditions. Once the terms have been renegotiated, any impairment is measured using the original effective interest rate as calculated before the modification of terms and the loan is no longer considered past due. Management continually reviews renegotiated loans to ensure that all criteria are met and that future payments are likely to occur. The loans continue to be subject to an individual or collective impairment assessment, calculated using the loan’s original effective interest rate.

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2015

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.2 Summary of significant accounting policies (Continued)

Financial guarantees

In the ordinary course of business, the Bank gives financial guarantees, consisting of letters of credit and guarantees.

Financial guarantees are initially recognised in the financial statements at fair value, being the commission received. Subsequent to initial recognition, the Bank's liability under each guarantee is measured at the higher of the un-amortised commission and the best estimate of expenditure required to settle any financial obligation arising as a result of the guarantee.

Provisions

Provisions are recognised when the Bank has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised in the statement of profit or loss.

Employees' end of service benefits

Costs relating to employees' end of service benefits are accrued in accordance with actuarial and other valuations as required by regulations applicable in the Kingdom of Bahrain. The Bank makes contributions to one Social Insurance Organisation calculated as a percentage of employees' salaries. The Bank's obligations are limited to these contributions, which are expensed when due.

Contingent liabilities

Contingent liabilities are not recognised in the financial statements, but are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

Share capital and statutory reserve

Share capital

Ordinary shares issued by the Bank are classified as equity. The Bank classifies capital instruments as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instruments. Incremental costs directly attributable to the issue of an equity instrument are deducted from the initial measurement of the equity instruments.

Statutory reserve

The Bahrain Commercial Companies Law requires that 10% of the annual profit be appropriated to a statutory reserve which is normally distributable only on dissolution. Appropriations may cease when the reserve reaches 50% of the paid up share capital.

Dividend

The Bank recognises a liability to make cash or non-cash distributions to equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Bank. As per the Bahrain Commercial Companies Law, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2015

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.2 Summary of significant accounting policies (Continued)

Fair value measurement

The Bank measures financial instruments, such as investments and derivatives at fair value at each balance sheet date. Fair value related disclosures for financial instruments and non-financial assets that are measured at fair value or where fair values are disclosed, are disclosed in note 21.5.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Bank.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Bank uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Bank determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Bank has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Bank and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment. The following specific recognition criteria must also be met before revenue is recognised:

Interest income

For all financial instruments measured at amortised cost and interest-bearing financial assets classified as available-for-sale, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or liability. The recognition of interest income is suspended when the loans become impaired, such as when overdue by more than 90 days.

Fee and commission income

Fee and commission income are recognised when earned.

Dividend income

Dividend income is recognised when the Bank's right to receive the payment is established, which is generally when shareholders approve the dividend.

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2015

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.2 Summary of significant accounting policies (Continued)

Share based payments

Cash-settled share based payments

The cost of cash-settled share based payment transactions is measured initially at fair value at the grant date using an appropriate valuation model. This fair value is expensed over the period until the vesting date with recognition of a corresponding liability. The liability is remeasured to fair value at each reporting date up to, and including the settlement date, with changes in fair value recognised in the statement of income.

Foreign currencies

The Bank's financial statements are presented in United States Dollars (US\$), which is the Bank's functional currency.

Transactions in foreign currencies are initially recorded at the rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in other comprehensive income (OCI) or profit or loss are recognised in OCI or profit or loss, respectively).

2.3. Changes in accounting policies and disclosures

i) New and amended standards and interpretations

The below new standards and amendments apply for the first time for annual periods beginning on or after 1 January 2015. However, they did not impact the annual financial statements of the Bank.

Amendments to IAS 19 Defined Benefit Plans: Employee Contributions

IAS 19 requires an entity to consider contributions from employees or third parties when accounting for defined benefit plans. Where the contributions are linked to service, they should be attributed to periods of service as a negative benefit. These amendments clarify that, if the amount of the contributions is independent of the number of years of service, an entity is permitted to recognise such contributions as a reduction in the service cost in the period in which the service is rendered, instead of allocating the contributions to the periods of service. This amendment is effective for annual periods beginning on or after 1 July 2014.

Annual Improvements 2010-2012 Cycle

With the exception of the improvement relating to IFRS 2 Share-based Payment applied to share-based payment transactions with a grant date on or after 1 July 2014, all other improvements are effective for accounting periods beginning on or after 1 July 2014. The Bank has applied these improvements for the first time in these financial statements. They include:

IFRS 2 Share-based Payment

This improvement is applied prospectively and clarifies various issues relating to the definitions of performance and service conditions which are vesting conditions. The clarifications are consistent with how the Bank has identified any performance and service conditions which are vesting conditions in previous periods. Thus, these amendments did not impact the Bank's financial statements or accounting policies.

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2015

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.3 Changes in accounting policies and disclosures (Continued)

IFRS 3 Business Combinations

The amendment is applied prospectively and clarifies that all contingent consideration arrangements classified as liabilities (or assets) arising from a business combination should be subsequently measured at fair value through profit or loss whether or not they fall within the scope of IAS 39. This is consistent with the Bank's current accounting policy and, thus, this amendment did not impact the Bank's non-financial accounting policy.

IAS 16 Property, Plant and Equipment and IAS 38 Intangible Assets

The amendment is applied retrospectively and clarifies in IAS 16 and IAS 38 that the asset may be revalued by reference to observable data by either adjusting the gross carrying amount of the asset to market value or by determining the market value of the carrying value and adjusting the gross carrying amount proportionately so that the resulting carrying amount equals the market value. In addition, the accumulated depreciation or amortisation is the difference between the gross and carrying amounts of the asset. This amendment did not have any impact as the Bank did not revalue any non-financial assets during the current period.

IAS 24 Related Party Disclosures

The amendment is applied retrospectively and clarifies that a management entity (an entity that provides key management personnel services) is a related party subject to the related party disclosures. In addition, an entity that uses a management entity is required to disclose the expenses incurred for management services. This amendment is not relevant for the Bank as it does not receive any management services from other entities.

Annual Improvements 2011-2013 Cycle

These improvements are effective from 1 July 2014 and the Bank has applied these amendments for the first time in these financial statements. They include:

IFRS 13 Fair Value Measurement

The amendment is applied prospectively and clarifies that the portfolio exception in IFRS 13 can be applied not only to financial assets and financial liabilities, but also to other contracts within the scope of IAS 39. The Bank does not apply the portfolio exception in IFRS 13.

ii) Standards issued but not yet effective

The standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Bank's financial statements are disclosed below. This listing is of standards and interpretations issued, which the Bank reasonably expect to be applicable at a future date. The Bank intends to adopt these standards, if applicable, when they become effective.

IFRS 9 Financial Instruments

In July 2014, the IASB issued the final version of IFRS 9 Financial Instruments that replaces IAS 39 Financial Instruments: Recognition and Measurement and all previous versions of IFRS 9. IFRS 9 brings together all three aspects of the accounting for financial instruments project: classification and measurement, impairment and hedge accounting. IFRS 9 is effective for annual periods beginning on or after 1 January 2018, with early application permitted. Except for hedge accounting, retrospective application is required but providing comparative information is not compulsory. For hedge accounting, the requirements are generally applied prospectively, with some limited exceptions.

The Bank plans to adopt the new standard on the required effective date. During 2016, the Bank plans to perform a high-level impact assessment of all three aspects of IFRS 9 as required by the Central Bank of Bahrain.

IFRS 15 Revenue from Contracts with Customers

IFRS 15 was issued in May 2014 and establishes a five-step model to account for revenue arising from contracts with customers. Under IFRS 15, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2015

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.3 Changes in accounting policies and disclosures (Continued)

IFRS 15 Revenue from Contracts with Customers (Continued)

The new revenue standard will supersede all current revenue recognition requirements under IFRS. Either a full retrospective application or a modified retrospective application is required for annual periods beginning on or after 1 January 2018, when the IASB finalises their amendments to defer the effective date of IFRS 15 by one year. Early adoption is permitted. The Bank plans to adopt the new standard on the required effective date using the full retrospective method. During 2015, the Bank performed a preliminary assessment of IFRS 15, which is subject to changes arising from a more detailed ongoing analysis. Furthermore, the Bank is considering the clarifications issued by the IASB in an exposure draft in July 2015 and will monitor any further developments.

IFRS 16 Leases

The International Accounting Standards Board (IASB) has published a new standard, IFRS 16 'Leases'. The new standard brings most leases on-balance sheet for lessees under a single model, eliminating the distinction between operating and finance leases. Lessor accounting however remains largely unchanged and the distinction between operating and finance leases is retained. IFRS 16 supersedes IAS 17 'Leases' and related interpretations and is effective for periods beginning on or after 1 January 2019, with earlier adoption permitted if IFRS 15 'Revenue from Contracts with Customers' has also been applied.

Amendments to IAS 16 and IAS 38: Clarification of Acceptable Methods of Depreciation and Amortisation

The amendments clarify the principle in IAS 16 and IAS 38 that revenue reflects a pattern of economic benefits that are generated from operating a business (of which the asset is part) rather than the economic benefits that are consumed through use of the asset. As a result, a revenue-based method cannot be used to depreciate property, plant and equipment and may only be used in very limited circumstances to amortise intangible assets. The amendments are effective prospectively for annual periods beginning on or after 1 January 2016, with early adoption permitted. These amendments are not expected to have any impact to the Bank given that the Bank has not used a revenue-based method to depreciate its non-current assets.

- IAS 34 Interim Financial Reporting

The amendment clarifies that the required interim disclosures must either be in the interim financial statements or incorporated by cross-reference between the interim financial statements and wherever they are included within the interim financial report (e.g., in the management commentary or risk report). The other information within the interim financial report must be available to users on the same terms as the interim financial statements and at the same time. This amendment must be applied retrospectively.

These amendments are not expected to have any impact on the Bank.

Amendments to IAS 1 Disclosure Initiative

The amendments to IAS 1 Presentation of Financial Statements clarify, rather than significantly change, existing IAS 1 requirements. The amendments clarify:

- The materiality requirements in IAS 1;
- That specific line items in the statement(s) of profit or loss and OCI and the statement of financial position may be disaggregated;
- That entities have flexibility as to the order in which they present the notes to financial statements; and
- That the share of OCI of associates and joint ventures accounted for using the equity method must be presented in aggregate as a single line item, and classified between those items that will or will not be subsequently reclassified to profit or loss.

Furthermore, the amendments clarify the requirements that apply when additional subtotals are presented in the statement of financial position and the statement(s) of profit or loss and OCI. These amendments are effective for annual periods beginning on or after 1 January 2016, with early adoption permitted. These amendments are not expected to have any impact on the Bank.

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2015

3. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Bank's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

In the process of applying the Bank's accounting policies, management has made the following judgments, estimates and assumptions which have the most significant effect on the amounts recognised in the financial statements.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Bank based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Bank. Such changes are reflected in the assumptions when they occur.

Going concern

The Bank's management has made an assessment of the Bank's ability to continue as a going concern and is satisfied that the Bank has the resources to continue in business for the foreseeable future. Furthermore, the Board of Directors is not aware of any material uncertainties that may cast significant doubt upon the Bank's ability to continue as a going concern. Therefore, the financial statements continue to be prepared on a going concern basis.

Impairment and uncollectability of financial assets

Financial assets not carried at fair value are reviewed at each statement of financial position date to determine whether there is objective evidence that a specific financial asset may be impaired. If such evidence exists, any impairment loss is recognised in the statement of profit or loss. For assets carried at amortised cost, impairment is based on estimated future cash flows discounted at the original effective interest rate.

Classification of investments

Management decides on acquisition of a financial asset whether it should be classified as "fair value through profit or loss", "available-for-sale" or "held to maturity". The classification of each investment reflects management's intention in relation to each investment and is subject to different accounting treatments based on such classification.

4. CASH AND BALANCES WITH CENTRAL BANK AND OTHER BANKS

	2015 US\$ '000	2014 US\$ '000

Reclassification of financial assets

In October 2008, the IASB issued amendments to IAS 39 "Financial Instruments: Recognition and Measurement" and IFRS 7 "Financial Instruments: Disclosures" titled "Reclassification of Financial Assets". The amendments to IAS 39 permit reclassification of financial assets from the "trading investment" category to "loans and advances" category in certain circumstances.

The amendments to IFRS 7 introduce additional disclosure requirements if an entity has reclassified financial assets in accordance with the IAS 39 amendments. The amendments are effective retrospectively from 1 July 2008.

In accordance with the amendments to IAS 39 and IFRS 7, "Reclassification of Financial Assets" the Bank reclassified investments in Iraq Notes with a carrying value of US \$ 40.2 million, effective 1 July 2008 from <trading investment> to <loans and advances> pursuant to the amendment to IAS 39 and IFRS 7 issued by IASB in October 2008 and considering the global financial crisis as a rare circumstance in the financial sector.

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2015

8. LOANS AND ADVANCES (Continued)

The carrying values and fair values of the assets reclassified are as follows:

	2015 US\$ '000	2014 US\$ '000
Carrying value	43,899	43,242
Fair value	37,215	46,361

Additional fair value loss that would have been recognised in the statement of profit or loss for the year ended 31 December 2015 had the trading investment not been reclassified amounts to US\$ 6,684 thousand (2014: US\$ 3,119 thousand).

The Bank earns an effective interest rate of 8.89% (2014: 8.89%) and expects to recover US \$ 43,899 thousand (2014: US\$ 43,242 thousand) on this reclassified financial asset.

9. PROPERTY, EQUIPMENT AND SOFTWARE

	Land US\$ '000	Building US\$ '000	equipment and motor vehicles US\$ '000	Software US\$ '000	Capital work in progress US\$ '000	Total US\$ '000

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2015

10. DEPOSITS FROM AND DUE TO BANKS AND OTHER FINANCIAL INSTITUTIONS

10.1. Deposits from banks and other financial institutions

Deposits from banks and other financial institutions represent interest bearing money market deposits held with the Bank as at the statement of financial position date.

10.2. Due to banks and other financial institutions

Due to banks and other financial institutions comprise the following current account balances and cash collateral held with the Bank in relation to the letters of credit and letters of guarantee as at the statement of financial position date:

	2015 US\$ '000	2014 US\$ '000
Current account balances	104,116	73,072
Cash collateral held	98,243	146,564
	202,359	219,636

11. DUE TO CUSTOMERS

Due to customers represent current account balances and cash collateral of corporate customers held with the Bank in relation to the letters of credit and letters of guarantee as at the statement of financial position date.

	2015 US\$ '000	2014 US\$ '000
Current account balances	23,406	18,492
Cash collateral held	8,166	6,659
	31,572	25,151

12. OTHER LIABILITIES

	2015 US\$ '000	2014 US\$ '000
Accrued expenses	4,152	4,358
Negative fair value of derivatives -net (note 22)	563	57
Unearned fee income	517	4,908
Retention money	22	-
Other	2,349	2,427
	7,603	11,750

Other liabilities include US\$ 484 thousand (2014: US\$ 214 thousand) of liability relating to cash settled share based payments.

The Bank has established an Employee Phantom Share Scheme (EPSS) in compliance with the Sound remuneration rules issued by the Central Bank of Bahrain. Under the scheme, certain eligible employees of the Bank become entitled to share based compensation. Under the EPSS, each eligible employee is issued with a phantom share award which entitles the holder to receive one phantom share at the delivery date. The share awards will vest over 3 years with one third award vesting at the end of the subsequent 3 years. The eligible employee has to retain the shares for a period of 6 months post the award date prior to encashing the vested awards. Phantom units are ultimately cash settled based on the audited net book value of the Bank at the vesting dates.

The cost of the phantom units are initially measured at net-book-value per share of the Bank at the grant date and expensed in the statement of income with a corresponding liability being recognised. The liability is remeasured to its net-book-value per share of the Bank at each reporting date up to the date of settlement with changes in fair value recognised in the statement of profit or loss.

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2015

13. SHARE CAPITAL

	2015 US\$ '000	2014 US\$ '000
Authorised:

Advance towards capital increase

At the Extraordinary General Meeting held on 28 April 2014, the shareholders approved the increase of the Bank's issued share capital from US\$ 250 million to US\$ 300 million. During the year, US\$ 140 thousand of the advance received towards capital increase was refunded due to non-receipt of complete subscriptions from all the shareholders.

Statutory reserve

As required by the Bahrain Commercial Companies Law and the Bank's articles of association, a statutory reserve has been created by transfer of 10% of its annual profit. The Bank may resolve to discontinue such transfers when the reserve totals 50% of the paid up capital. The reserve is not distributable except in such circumstances as stipulated in the BCCL and following approval of the Central Bank of Bahrain.

14. DIVIDENDS PAID AND PROPOSED

The Bank has not proposed a dividend for the year ended 31 December 2015 (2014: US\$ 25 million; US\$ 5 per share).

During the year, the dividend for the year ended 31 December 2014 amounting to US\$ 25 million (US\$ 5 per share) was paid following regulatory approvals and the approval of the shareholders in the Annual General Meeting held on 12 April 2015.

Legal claim contingency

The Bank is defendant in a legal proceeding that has arisen in the ordinary course of business. A counterparty is pursuing a claim of approximately US\$ 8 million (2014: US\$ 8 million) including opportunity loss for future periods. The counterparty's claim is based on a document, which management believes does not commit the Bank. The Directors of the Bank, on reviewing the advice of professional legal advisers, are satisfied that the claim is not legally tenable and the outcome will not have any material effect on the financial position of the Bank.

21. RISK MANAGEMENT

21.1. Introduction

Risk is inherent in the Bank's activities and is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Bank's continuing profitability and each individual within the Bank is accountable for the risk exposures relating to his or her responsibilities. The main risks to which the Bank is exposed are credit risk, liquidity risk, market risk and operational risk.

a) Risk management structure

Board of Directors

The Board of Directors is responsible for the overall risk management approach and for approving the risk strategies and principles.

Audit Risk and Compliance Committee

The Audit Risk and Compliance Committee (ARCC) of the Board is responsible for assessing the quality and integrity of financial reporting, effectiveness of systems monitoring financial and disclosure compliance with legal and regulatory requirements, supervision of compliance function and soundness of internal controls. The ARCC also obtains regular updates from management and the Bank's compliance officer regarding compliance matters, which may have a material impact on the Bank's financial statements and reviews the findings of any examinations by regulatory agencies.

Management Risk Committee

The Management Risk Committee has the overall responsibility for establishing the risk strategy and implementing principles, frameworks, policies and limits. It is responsible for the fundamental risk issues and manages and monitors relevant risk decisions.

Asset Liability Management Committee

The Asset Liability Management Committee's (ALCO) objective is to prudently direct and manage asset and liability allocation to achieve the Bank's strategic goals. The ALCO monitors the Bank's liquidity risks by ensuring that the Bank's activities are in line with the risk/reward guidelines approved by the Board.

Internal Audit

Internal control processes throughout the Bank are audited at least annually by the Internal Audit Department, based on the risk-based audit plan approved by the ARCC. Audit staff examine both the adequacy of the procedures and the Bank's compliance with the procedures. Internal Audit discusses the results of all assessments with management and reports its findings and recommendations to the ARCC.

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2015

21. RISK MANAGEMENT (Continued)

21.1. Introduction (Continued)

b) Risk measurement and reporting systems

Monitoring and controlling risks is primarily performed based on limits approved by the Board. These limits reflect the business strategy and market environment of the Bank as well as the level of risk that it is willing to accept, with additional emphasis on selected industries. The Bank also monitors and measures the overall risk-bearing capacity in relation to the aggregate risk exposure across all risk types and activities.

c) Credit concentration risk

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Bank's performance to developments affecting a particular industry or geographical location.

In order to manage credit concentration risk, the Bank's policies and procedures include guidelines to maintain a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly.

21.2. Credit risk

Credit risk is the risk that a customer or counterparty will fail to meet a commitment, resulting in financial loss to the Bank. Such risk arises from lending, treasury and other activities undertaken by the Bank. Credit risk is actively monitored in accordance with the credit policies which clearly define delegated lending authorities, and procedures. The Bank manages its credit risk by monitoring concentration of exposures by geographic location and adhering to approved limits. The Bank limits its risk on off balance sheet items with adequate collateral.

a. Maximum exposure to credit risk without taking account of any collateral and other credit enhancements

The table below shows the maximum exposure to credit risk for the components of the statement of financial position. The maximum exposure is shown gross, before the effect of mitigation through the use of master netting and collateral agreements. The net exposure represents gross exposure net of cash collateral against letters of credit.

	Gross maximum exposure 2015 US\$ '000	Net maximum exposure 2015 US\$ '000	Gross maximum exposure 2014 US\$ '000	Net maximum exposure 2014 US\$ '000
Balances with banks	488,518	488,518	22,489	22,489
Deposits with banks and other financial institutions	408,117	408,117	523,645	523,645
Investments held for trading	21,455	21,455	3,000	3,000
Non-trading investments	144,289	144,289	147,994	147,994
Loans and advances	360,176	301,206	485,255	439,643
Interest receivable	6,581	6,581	8,922	8,922
Other assets	1,567	1,567	921	921
Total funded credit risk exposure	1,430,703	1,371,733	1,192,226	1,146,614
Unfunded exposure on credit related contingencies	199,373	114,048	286,865	179,254
Total funded and unfunded credit risk exposures	1,630,076	1,485,781	1,479,091	1,325,868

The amount, type and valuation of collateral are based on guidelines specified in the risk management framework. The main types of collaterals accepted include cash collateral, residential and commercial real estate and securities.

b. Credit quality per class of financial assets

The table below presents an analysis of the financial assets exposed to credit risk and external rating designation at 31 December 2015 and 31 December 2014. The credit quality is graded based on external credit rating agencies - Standard & Poor, Fitch and Moody's and internal ratings are categorised as follows:

- (i) High standard - Where external credit rating agency ratings are A and above.
- (ii) Standard - Where external credit rating agency ratings are below A.
- (iii) Watch list - Where the facility is not past due but recoverability is being monitored.
- (iv) Past due and impaired - Where interest or principal sum of loan is due for more than 90 days.

Gross of funded and unfunded exposures	118,518	1,205,489	155,084	1,479,091

21.3. Market risk

Market risk is the risk of potential financial loss that may arise from adverse changes in the value of a financial instrument or portfolio of financial instruments due to movements in interest rates, foreign exchange rates and equity prices. This risk arises from asset - liability mismatches, changes that occur in the yield curve and foreign exchange rates. Given the Bank's low risk strategy, aggregate market risk levels are considered very low.

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2015

21. RISK MANAGEMENT (Continued)

21.3. Market risk (Continued)

Interest rate risk arises from the possibility that changes in interest rates will affect the value of financial instruments. The Bank is exposed to interest rate risk as a result of mismatches or gaps in the amounts of assets and liabilities that mature or reprice in a given period. The Bank manages this risk by matching the repricing of assets and liabilities through a number of means. The Bank's interest rate sensitivity position as of 31 December, is as follows:

21.3.1. Interest rate risk

Sensitivity analysis - interest rate risk

	Impact on statement of profit or loss	
	2015 US\$ '000	2014 US\$ '000
25 bps increase/decrease		
US Dollar	± 161	± 524
Euro	± 764	± 1

21.3.2. Currency risk

Currency risk arise from the movement of the rate of exchange over a period of time. The Bank's currency risk is limited to assets and liabilities denominated in GBP and Euro. The following table demonstrates the sensitivity to a reasonable possible change in foreign exchange rates, with all other variables held constant, on the Bank's statement of comprehensive income:

	Change in rate	Effect on net income for the year	
		2015 US\$ '000	2014 US\$ '000
Euro	± 5%	± 7,351	± 13
GBP	± 5%	± 4	-

As other currency exposures are insignificant and GCC currencies to which the Bank is exposed are pegged to the US Dollar, their balances are not considered to represent significant currency risk.

21.3.3. Equity price risk

Equity price risk is the risk that the fair value of equities decreases as a result of changes in the value of individual companies' shares. The effect on profit and equity, as a result of a change in fair value of trading equity instruments, due to a reasonably possible change in equity prices, with all other variables held constant, is as follows:

	Change in equity prices	Effect on net income and equity for the year	
		2015 US\$ '000	2014 US\$ '000
Investments held for trading	± 10%	± 2	± 4

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2015

21. RISK MANAGEMENT (Continued)

21.4. Liquidity risk

Liquidity risk is the risk that the Bank will be unable to meet its funding requirements. Liquidity risk can be caused by market disruptions or a credit downgrade which may cause certain sources of funding to dry up immediately. To limit this risk, management has arranged diversified funding sources, manages assets with liquidity in mind, and monitors liquidity on a daily basis. This incorporates an assessment of expected cash flow and the availability of high grade collateral which would be used to secure additional funding if required.

The maturity profile of the assets and liabilities at 31 December 2015 given below reflects the management's best estimates of the maturities of assets and liabilities that have been determined on the basis of the remaining period at the date of the statement of financial position.

	Up to 1 year				More than 1 year	No specific maturity	Total
	Up to 1 month	1 to 3 months	3 to 12 months	Total

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2015

21. RISK MANAGEMENT (Continued)

21.5. Fair value of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

Fair value hierarchy

The Bank uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly; and

Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

Fair value hierarchy - financial instruments measured at fair value

The following table provides the fair value measurement hierarchy of the Bank's financial instruments measured at fair value:

At 31 December 2015	Level 1 US\$ '000	Level 2 US\$ '000	Total US\$ '000
Investments held for trading	21,477	-	21,477
Available-for-sale investments	29,175	-	29,175
Derivative financial instruments	-	(563)	(563)
	50,652	(563)	50,089
At 31 December 2014			
Investments held for trading	3,037	-	3,037
Available-for-sale investments	17,722	-	17,722
Derivative financial instruments	-	(57)	(57)
	20,759	(57)	20,702

The Bank had no investments measured at fair value qualifying for level 3 of fair value hierarchy as at 31 December 2015 and as at 31 December 2014.

Transfers between level 1, level 2 and level 3

During the year ended 31 December 2015, there were no transfers between level 1 and level 2 fair value measurements, and no transfers into or out of level 3 fair value measurement (2014: nil).

Fair value hierarchy - financial instruments not measured at fair value

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2015

21. RISK MANAGEMENT (Continued)

21.5. Fair value of financial instruments (Continued)

The following table provides the fair value measurement hierarchy of the Bank's financial instruments not measured at fair value:

	Level 1 US\$ '000	Level 2 US\$ '000	Level 3 US\$ '000	Total fair value US\$ '000	Carrying value US\$ '000
At 31 December 2015					
Held-to-maturity investments	109,853	-	3,000	112,853	115,114
Loans and advances	37,215	-	-	37,215	43,899
	147,068	-	3,000	150,068	159,013
At 31 December 2014					
Held-to-maturity investments	121,988	-	7,815	129,803	130,272
Loans and advances	46,361	-	-	46,361	43,242
	168,349	-	7,815	176,164	173,514

- Fair values of held-to-maturity investments and loans are determined based on quoted prices in active markets.

Balances with banks, deposits with banks and other financial institutions, loans and advances (other than those disclosed in the table above), interest receivable, other assets, deposits from banks and other financial institutions, due to banks and other financial institutions, due to customers, interest payable and other liabilities are generally short term in nature. Management has assessed that the fair values of these approximate their carrying values as of 31 December 2015 and 31 December 2014.

22. DERIVATIVE FINANCIAL INSTRUMENTS

In the ordinary course of business, the Bank enters into various types of transactions that involve derivative financial instruments. A derivative financial instrument is a financial contract between two parties where payments are dependent upon movements in price in one or more underlying financial instruments, reference rates or indices.

These include forward exchange contracts which create rights and obligation that have the effect of transferring between the parties of the instrument one or more of the financial risks inherent in an underlying primary financial instrument. On inception, a derivative financial instrument gives one party a contractual right to exchange financial assets or financial liabilities with another party under conditions that are potentially favourable, or a contractual obligation to exchange financial assets or financial liabilities with another party under conditions that are potentially unfavourable. However, they generally do not result in a transfer of the underlying primary financial instrument on inception of the contract, nor does such a transfer necessarily take place on maturity of the contract. Some instruments embody both a right and an obligation to make an exchange. Because the terms of the exchange are determined on inception of the derivative instruments, as prices in financial markets change those terms may become either favourable or unfavourable.

The table below shows the net fair values of derivative financial instruments together with the notional amount. These contracts are settled on a net basis. Depending on currency movements, the contracts may result in either a net asset or a net liability. The following table shows the material outstanding contracts as at 31 December:

	2015		2014	
	Notional amount US\$ '000	Gain / (loss) US\$ '000	Notional amount US\$ '000	Gain / (loss) US\$ '000
Forward contracts	147,524	(563)	340	(57)

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2015

23. TRANSACTIONS WITH RELATED PARTIES

Related parties represent shareholders, directors and key management personnel of the Bank, and entities controlled, jointly controlled or significantly influenced by such parties. Pricing policies and terms of these transactions are approved by the Bank's management.

Transactions with related parties included in the statement of profit or loss and statement of financial position are as follows:

	2015 US\$ '000	2014 US\$ '000
Statement of profit or loss		
Interest income	439	756
Interest expense	2,416	841
Fee and commission income	392	1,077
Statement of financial position		
Assets		
Cash and balances with banks	8,780	1,595
Deposit with banks and financial institutions	10,000	88,541
Loans and advances	3,559	7,511
Interest receivable	11	199
Other assets	725	220
Liabilities		
Deposits from banks and other financial institutions	695,175	400,376
Due to banks and other financial institutions	14,754	16,249
Interest payable	1,258	154
Other liabilities	1,339	2,221
Assets under management (note 24)	21,005	23,376
Contingent liabilities		
Letters of credit and letters of guarantee (fully secured by deposits)	8,013	17,549

Compensation paid to the Board of Directors and key management personnel:

	2015 US\$ 000	2014 US\$ 000
Short term benefits	3,963	4,116
End of term benefits	314	189
Cash settled share based payments	270	214
Total compensation	4,547	4,519

Short term benefits include Board of Directors' bonus and sitting fee of US\$ 786 thousand (2014: US\$ 662 thousand) and reimbursement of travel, accommodation and other expenses amounting to US\$ 175 thousand (2014: US\$ 184 thousand). The accrual is subject to approval by the Bank's shareholders in the next Annual General Meeting.

Short term benefits also include compensation paid to key management personnel as salary, allowances and bonus.

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2015

24. ASSETS UNDER MANAGEMENT

The Bank provides trade finance services to certain customers on behalf of its Parent, which involve the Bank acting as the custodian of the assets in a fiduciary capacity. Assets that are held in financing capacity are not included in these financial statements. At 31 December 2015, the Bank had fiduciary assets under management of US\$ 21,005 thousand (2014:US\$ 23,376 thousand).

25. CAPITAL ADEQUACY

The primary objectives of the Bank's capital management are to ensure that the Bank complies with externally imposed capital requirements and the Bank maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise shareholders' value.

In order to maintain or adjust the capital structure, the Bank may adjust the amount of dividend payment to shareholders, return capital to shareholders or issue capital securities.

The risk asset ratio, calculated in accordance with the capital adequacy guidelines, under Basel III, approved by the Central Bank of Bahrain is as follows:

	2015 US\$ 000	2014 US\$ 000
Capital base:		
Tier 1 capital	329,611	331,912
Tier 2 capital	3,765	9,134
Total capital base (a)	333,376	341,046
Risk weighted assets (b)	753,148	808,372
Capital adequacy (a/b * 100)	44.26%	42.19%
Minimum requirement	12.00%	12.00%

BASEL III PILLAR III DISCLOSURES

31 December 2015

1. Introduction

Central Bank of Bahrain("CBB"), the regulating body for Banks and Financial Institutions in the Kingdom of Bahrain,provides a common framework for the implementation of BASEL III accord.

The BASEL III framework is based on three pillars:

- Pillar I defines the regulatory minimum capital requirements by providing rules and regulations for measurement of credit risk, market risk and operational risk. The requirement of capital has to be covered by own regulatory funds.
- Pillar II addresses the Bank's internal processes for assessing overall capital adequacy in relation to risks (ICAAP). Pillar II also introduces the Supervisory review and Evaluation Process (SREP), which assesses the internal capital adequacy.
- Pillar III complements the other two pillars and focuses on enhanced transparency in information disclosure, covering risk and capital management, including capital adequacy.

This document gathers together all the elements of the disclosure required under Pillar III and complies with the public disclosure module of CBB, in order to enhance corporate governance and financial transparency. This disclosure report is in addition to the financial statements presented in accordance with International Financial Reporting Standards (IFRS).

2. Corporate Structure

ALUBAF Arab International Bank B.S.C. (c) ("the Bank") is a closed Bahraini joint stock company incorporated in the Kingdom of Bahrain and registered with the Ministry of Industry and Commerce under Commercial Registration (CR) number 12819. The Bank operates under a wholesale banking license issued by the Central Bank of Bahrain under the new integrated licensing framework. The Bank's registered office is at Alubaf Tower , Al Seef District, P O Box 11529, Manama, Kingdom of Bahrain.

The Bank is majority owned by Libyan Foreign Bank (Shareholding 99.50%), a bank registered in Libya.

3. Capital Structure

The Bank's Capital base comprise of Tier I capital, which includes share capital, statutory reserve and retained earnings and Tier II capital, which includes collective impairment loss provision.

The Bank's issued and paid up capital was US\$ 250 million as at 31 December 2015, comprising of 5 million equity shares of US\$ 50 each.

Break down of Capital Base

	US\$ '000s CET I	US\$ '000s Tier II
Share Capital	250,000	-
Statutory reserve	17,667	-
Retained earnings	40,272	-
Profit for current period	25,072	-
Unrealized loss on Available for sale financial instruments	(3,241)	-
Less: Regulatory adjustment for Intangibles	(159)	-
Collective impairment loss provision	-	3,765
Total	329,611	3,765
Total Available Capital		333,376

ALUBAF recorded a net profit of US\$ 25,072 thousand for the year ended 31 December 2015 and transferred 10% of profits (US\$ 2,507 thousand) towards Statutory reserve.

BASEL III PILLAR III DISCLOSURES

31 December 2015

4. Capital Adequacy Ratio (CAR)

The purpose of capital management at the Bank is to ensure the efficient utilization of capital in relation to business requirements and growth, risk profile and shareholders' returns and expectations.

The Bank manages its capital structure and makes adjustments in the light of changes in economic conditions and risk characteristics of its activities.

Capital adequacy ratio calculation:

The Bank's capital adequacy ratio of 44.26% is well above the minimum regulatory requirement of 12%.

	US\$ '000
Total Eligible Capital Base	333,376
Risk weighted assets (RWA)	
Credit risk	657,904
Market risk	900
Operational risk	94,344
	753,148
CET I ratio	43.76%
Capital adequacy ratio	44.26%

5. Profile of risk-weighted assets and capital charge

The Bank has adopted the standardized approach for credit risk, market risk and the Basic indicator approach for operational risk for regulatory reporting purposes. The Bank's risk weighted capital requirement for credit, market and operational risks are given below:

5.1. Credit risk

Definition of exposure classes per Standard Portfolio

The Bank has funded and unfunded credit portfolio. The exposures are classified as per the Standard portfolio approach mentioned under the CBB's BASEL III capital adequacy framework covering the standardized approach for credit risk.

The descriptions of the counterparty classes along with the risk weights used to derive the risk weighted assets are as follows:

- a) Claims on sovereigns
These pertain to exposures to governments and their central banks. Claims on Bahrain are risk weighted at 0%, while claims on other sovereigns, denominated in a non-relevant currency and unrated are assigned a risk weight of 100%.
- b) Claims on banks
Claims on Banks are risk weighted based on the ratings assigned to them by external rating agencies. However, short term claims on locally incorporated banks and claims maturing within three months and denominated in Bahrain Dinars or US Dollars are risk weighted at 20%. Other claims on banks, which are in foreign currency, are risk weighted using standard risk weights ranging from 20% to 100%. Unrated claims on banks are assigned a risk weight of 20% & 50% respectively.
- c) Claims on corporate portfolio
Claims on corporate portfolio are risk weighted based on external credit ratings and are assigned a risk weight of 100% for unrated corporate portfolio.

BASEL III PILLAR III DISCLOSURES

31 December 2015

5. Profile of risk-weighted assets and capital charge (Continued)

5.1. Credit risk (Continued)

d) Past due exposure

Past due exposures include Loans and advances of which interest or repayment of principal are due for more than 90 days; Past due exposures, net of specific provisions are risk weighted as follows:

(a) 150% risk weight, when specific provisions are less than 20% of the outstanding amount.

(b) 100% risk weight, when specific provisions are greater than 20% of the outstanding amount of the loan.

e) Equity portfolios

Investments in listed equities are risk weighted at 100%.

f) Any exposure exceeding 15% of Total capital

Claims on Banks or Corporate and other sovereigns or equity exposure that exceed 15% of total capital are risk weighted at 800%.

g) Other exposures

These are risk weighted at 100%.

Credit exposure and risk weighted assets US\$ '000

	Funded exposures	Unfunded exposures	Gross credit exposures	Eligible collateral	Risk weighted assets	Capital charge
Claims on sovereigns	445,453	18,581	464,034	33,162	109,063	13,088
Claims on banks	810,908	107,673	918,581	38,453	348,185	41,782
Claims on corporate	130,520	72,431	202,951	2,759	141,134	16,936
Past due exposures	46,020	-	46,020	-	46,020	5,522
Equity portfolio	23	-	23	-	23	3
Other exposures	13,841	688	14,529	-	13,479	1,617
Total	1,446,765	199,373	1,646,138	74,374	657,904	78,948

Gross credit exposure before credit risk mitigation

	US\$ '000	
	Gross credit exposure	Average monthly gross exposure
Claims from Sovereigns	445,453	168,258
Claims from Banks	810,908	810,661
Claims on Corporate	130,520	124,895
Past due exposures	46,020	78,548
Equity Portfolio	23	948
Other exposures	13,841	13,791
Total funded exposure	1,446,765	1,197,102
Unfunded exposures	199,373	226,960
Gross credit exposures	1,646,138	1,424,062

Average monthly balance represents the average of the sum of twelve month end balance for the year ended 31 December 2015.

BASEL III PILLAR III DISCLOSURES

31 December 2015

5. Profile of risk-weighted assets and capital charge (Continued)

5.2. Market risk

The Bank's capital requirement for market risk in accordance with the standardised methodology is as follows:

			US\$ '000	
	Risk weighted exposures	Capital charge	Maximum value	Minimum value
Foreign exchange risk	900	108	1,838	750

5.3. Operational risk

In accordance with the Basic indicator approach, the total capital charge in respect of operational risk was US\$ 11,321 thousand on operational risk weighted exposure of US\$ 94,344 thousand. This operational risk weighted exposure is computed using the Basic indicator approach, where a fixed percentage (Alpha), which is 15% of the average previous of three years' annual gross income, is multiplied by 12.5 operational capital charge; years with positive gross income are counted for computation of capital charge. This computation is as per CBB rulebook.

6. Risk Management

Risk is inherent in the Bank's business activities and is managed through a process of on going identification, measurement, controlling and monitoring. The Bank is exposed to credit risk , market and operational risk. Risk strategies of the Bank to mitigate the various risks were effective throughout the year.

Following is the Risk and Capital Management Structure:

Board of Directors
Board Audit, Risk & Compliance Committee
Management Risk Committee
Asset Liability Management Committee

The Board of Directors is responsible for the best practice management and risk oversight. Board of Directors defines the risk appetite and risk tolerance standards and oversees that risk process standards are in place. At the second level, Executive management is responsible for the identification and evaluation on a continuous basis of all significant risks to the business and implementation of appropriate internal controls to minimize them. Senior management is responsible for monitoring credit lending portfolio, country limits and interbank limits and general credit policy matters, which are reviewed and approved by the Board of Directors.

Independent internal audit of risk management process is conducted and its findings are to the Audit , Risk and Compliance Committee, which is appointed by the Board of Directors.

6.1. Credit risk concentrations and thresholds

The first level of protection against undue credit risk is through country and industry threshold limits, together with individual borrower threshold limits. Single name concentrations are monitored on an individual basis. Under the CBB's single obligor regulations, banks incorporated in Bahrain are required to obtain the CBB's approval for any planned exposure to a single counterparty or group of connected counterparties exceeding 15% of the regulatory capital base.

BASEL III PILLAR III DISCLOSURES

31 December 2015

6. Risk Management (Continued)

6.1. Credit risk concentrations and thresholds (Continued)

As at 31 December 2015, the Bank's exposure in excess of 15% of the obligor limits to individual counterparties is shown below:

US\$'000	Funded exposure	Unfunded exposure	Total
Counterparty A *	152,272	Nil	152,272
Counterparty B **	247,480	Nil	247,480

* These are interbank deposits maturing within 6 months from 31 December 2015.

**Comprise of balance held as CBB Treasury Bills.

Risk mitigation –collateral

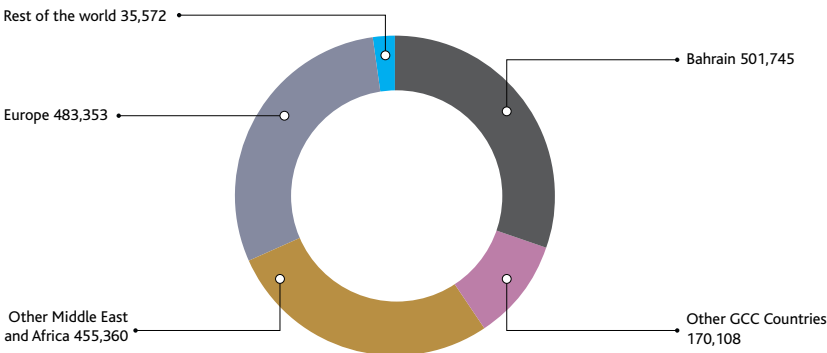

The amount and type of collateral depends on an assignment of the credit risk, credit rating and market conditions of the counterparty. The types of collateral mainly include cash collaterals for both funded and unfunded credit exposures, which is liquidated on maturity/expiry date. However, the impact on cash collateral will be nil with credit downgrade.

Majority of the collateral taken by the Bank is in cash; therefore, concentration risk is not significant. For further details on refer note 21.2 of the annual audited financial statements for the year ended 31 December 2015.

6.2. Geographical distribution of exposures based on residence is summarized below:

	US\$ '000		
	Gross credit exposure	Funded exposure	Unfunded exposure
Bahrain	501,745	501,745	-
Other GCC Countries	170,108	135,794	34,314
Other Middle East & Africa	455,360	316,407	138,953

BASEL III PILLAR III DISCLOSURES
31 December 2015

6. Risk Management (Continued)

6.2. Geographical distribution of exposures (Continued)

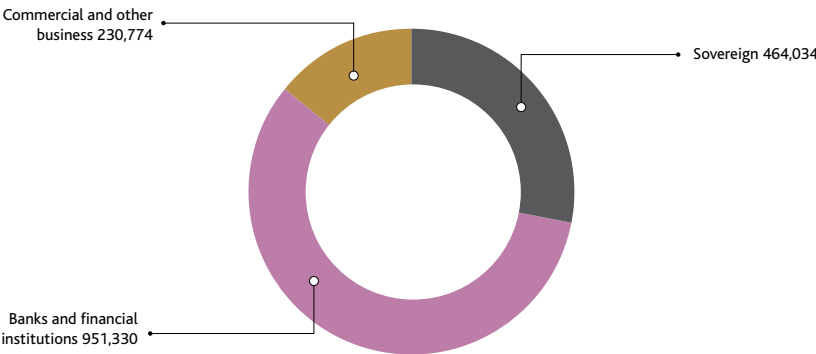

The geographical distribution of gross credit exposures by major type of credit exposures can be analyzed as follows:

	US\$ '000					
	Bahrain	Other GCC Countries	Other Middle East and Africa	Europe	Rest Of the world	Total
Claims from Sovereigns	289,318	21,253	125,292	-	9,590	445,453
Claims from Banks	194,044	100,082	105,703	410,763	316	810,908
Claims on Corporate	5,058	14,459	38,867	67,001	5,135	130,520
Past due exposures	-	-	46,020	-	-	46,020
Equity Portfolio	23	-	-	-	-	23
Other exposures	13,302	-	525	14	-	13,841
Total funded exposure	501,745	135,794	316,407	477,778	15,041	1,446,765
Unfunded exposures	-	34,314	138,953	5,575	20,531	199,373
Gross credit exposures	501,745	170,108	455,360	483,353	35,572	1,646,138

6.3. Industry sector analysis of exposures is summarized below:

	US\$ '000		
	Gross credit exposure	Funded exposure	Unfunded exposure
Sovereign	464,034	445,453	18,581
Banks & financial institutions	951,330	842,969	108,361
Commercial & other businesses	230,774	158,343	72,431
Total	1,646,138	1,446,765	199,373

Sector distribution of exposures - USD '000s

BASEL III PILLAR III DISCLOSURES

31 December 2015

6. Risk Management (Continued)

6.3. Industry sector analysis of exposures is summarized below (Continued)

The industry sector analysis of gross credit exposures by major types of credit exposures can be analyzed as follows:

	US\$ '000		
	Banks & financial institutions	Sovereign	Commercial & other businesses
			Total
Claims from Sovereigns	-	445,453	445,453
Claims from Banks	810,908	-	810,908
Claims on Corporate	-	-	130,520
Past due exposures	31,453	-	14,567
Equity Portfolio	23	-	23
Other exposures	585	-	13,256
Total funded exposure	842,969	445,453	1,446,765
Unfunded exposures	108,361	18,581	72,431
Gross credit exposures	951,330	464,034	230,774
			1,646,138

6.4. Exposure by external credit rating

The Bank uses external credit ratings from Standard & Poors, Moodys and Fitch, which are accredited External Credit Assessment Institutions (ECAI). The Bank assigns risk weights through the mapping process provided by CBB to the rating grades. The Bank uses the highest risk weight associated, in case of two or more eligible ECAI are chosen. The breakdown of the Bank's exposure into rated and unrated categories is as follows:

	US\$ '000				
	Funded exposure	Unfunded exposure	Rated-High standard grade exposure	Rated-Standard grade exposure	Unrated exposure
Claims on sovereigns	445,453	18,581	7,604	332,220	124,210
Claims on banks	810,908	107,673	89,956	515,459	313,166
Claims on corporate	130,520	72,431	11,181	28,021	163,749

Total	676,442	343,256	74,233	1,093,931	278,198	62,743	11,893

6.5. Maturity analysis of unfunded exposures

	US\$ '000						
	Notional principal	Within 1 month	1-3 months	3-12 months	Total within 1 year	Over one year	Total
Claims on Sovereigns	18,581	5,355	-	13,226	18,581	-	18,581
Claims from Banks	107,673	11,737	49,055	46,881	107,673	-	107,673
Claims from Corporate	72,431	3,941	38,104	30,386	72,431	-	72,431
Other exposures	688	-	-	688	688	-	688
Total	199,373	21,033	87,159	91,181	199,373	-	199,373

Credit-related contingent items:

Credit related contingent items comprise letters of credit confirmations, acceptance and guarantees. For credit-related contingent items, the nominal value is converted to an exposure through the application of a credit conversion factor (CCF). The CCF applied is at 20% to convert off balance sheet notional amounts into an equivalent on balance sheet exposure.

6.6. Impairment of assets

The Bank makes an assessment at each balance sheet date to determine whether there is objective evidence that a specific financial asset may be impaired. If such evidence exists, an impairment loss is recognized in the statement of comprehensive income.

Evidence of impairment may include indications that a borrower is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that the borrower will enter bankruptcy or other financial re-organisation and where, observable data indicates, that there is a measurable decrease in the estimated future cash flows such as changes in arrears or economic conditions that correlate with defaults.

The Bank provides sufficiently by specific provision for any impairment and additionally, makes a collective provision of the net loans portfolio higher than 1% as required by the regulator.

Refer Disclosures made under 7.2 for details of impaired loans and relative specific provision made during 2015.

BASEL III PILLAR III DISCLOSURES

31 December 2015

6. Risk Management (Continued)

6.7. Market Risk

Market risk is the risk of potential financial loss that may arise from adverse changes in the value of a financial instrument or portfolio of financial instruments due to movements in interest rates, foreign exchange rates and equity prices. This risk arises from asset - liability mismatches, changes that occur in the yield curve and foreign exchange rates. Given the Bank's low risk strategy, aggregate market risk levels are considered very low.

Interest rate risk on the Banking book arises from the possibility that changes in interest rates will affect the value of financial instruments. The Bank is exposed to interest rate risk as a result of mismatches or gaps in the amounts of assets and liabilities and off-balance sheet instruments that mature or reprice in a given period. The Bank manages this risk by matching the repricing of assets and liabilities through basis point value approach, which measures changes in economic value resulting from changes in interest rates. The Bank's interest rate sensitivity position as of 31 December 2015 for a change in 200 basis points will result in an increase or decrease on statement of income by +/- US\$ 1,286 thousand for US\$ denominated and US\$ 6,112 on Euro denominated financial instruments.

Currency risk arises from the movement of the rate of exchange over a period of time. The Banks currency risk is limited to Euro denominated assets and liabilities, as Bahrain Dinars and GCC Currencies (except Kuwaiti Dinars) are pegged to US Dollars. The Bank limits this risk by monitoring positions on a regular basis. Thus, the Banks' exposure to currency risk is minimal and insignificant.

Liquidity risk is the risk that the Bank will be unable to meet its funding requirements. Liquidity risk can be caused by market disruptions or a credit downgrade which may cause certain sources of funding to dry up immediately. During 2015, the Bank depended mainly on its own capital and assets were managed with liquidity in mind, maintaining a healthy balance of cash, cash equivalents and deposits with banks.

6.8. Operational Risk

Operational risk is defined as the risk of loss resulting from inadequate or failed internal processes or systems, or from external events. Operational risk is inherent in all business activities and can never be eliminated entirely, however shareholder value can be preserved and enhanced by managing, mitigating and, in some cases, insuring against operational risk. To achieve this goal, the Bank intends to make operational risk transparent throughout the enterprise, to which end processes are being developed to provide for regular reporting of relevant operational risk management information to senior management and the Board of Directors.

Operational functions of booking, recording and monitoring of transactions are performed by staff that are independent of the individuals initiating the transactions. Each business line including Operations, Information Technology, Human Resources, Compliance and Financial Control – is further responsible for employing the aforementioned framework processes and control programmes to manage its operational risk within the guidelines established by the Bank policy, and to develop internal procedures that comply with these policies.

6.9. Capital management:

Internal Capital Adequacy Assessment Process (ICAAP)

The Bank's capital management aims to maintain an optimum level of capital to enable it to pursue the Bank's corporate strategies whilst meeting regulatory ratio requirements.

Comprehensive assessment of economic capital, i.e., credit, market and operational risks and processes relating to other risks such as liquidity, is made, reviewed and monitored regularly. The Bank's capital adequacy ratio of 44.26% is well above the regulatory requirement and provides a healthy cushion against any stress conditions.

Supervisory Review and Evaluation Process (SREP):

Central Bank of Bahrain (CBB) is the regulator for the Bank and sets the minimum capital requirement. CBB requires the Bank to maintain a 12% minimum ratio of total capital to risk weighted assets, taking into account both on balance sheet and off balance sheet exposures. The Bank maintains a strong and healthy capital adequacy ratio.

BASEL III PILLAR III DISCLOSURES 31 December 2015

7. Other Disclosures

7.1.Related Party transactions

Related party represents major shareholders, directors, key management personnel and entities significantly influenced by such parties. Pricing policies are at arm's length and approved by executive management and Board of Directors.

	31 December 2015 US\$ '000
Exposures to related parties:	22,339
Liabilities to related parties:	
Connected deposits	709,929
